Commission, 2013 **Schooling in Sub-Saharan Africa** Clive Harber, 2017-07-12 This book is a comprehensive text for those interested in formal education in sub Saharan Africa It provides a thought provoking overview of the key educational ideas themes and issues facing schooling in Africa today by drawing on a wide literature to examine evidence concerning both educational policy and the working realities of primary and secondary schools in Africa Based on the author s forty years of experience in researching and publishing on education in Africa it takes a balanced but critical approach to analysing education in Africa and discusses both positive and negative patterns across the region as well as identifying differences between and within countries The book examines major questions of educational provision structure content and process but does so in a way that raises challenging questions about gender inequality violence authoritarianism and democracy in education as well the fundamental question of whether education is achieving its desired outcomes It will be of

great interest to students and researchers working in the fields of comparative and international education education and international development African education African studies and development studies

Climate Change and the Role of Education Walter Leal Filho, Sarah L. Hemstock, 2019-11-28 This book offers insights into the educational dimensions of climate change and promotes measures to improve education in this context It is widely believed that education can play a key role in finding global solutions to many problems related to climate change Indeed education as a process not only helps young people to better understand and address the impact of global warming but also fosters better attitudes and behaviours to aid efforts towards mitigating climate change and adapting to a changing environment But despite the central importance of education in relation to climate change there is a paucity of publications on this theme Against this background the book focuses on the educational aspects of climate change and showcases examples of research projects and other initiatives aimed at educating various audiences It also provides a platform for reflections on the role education can play in fostering awareness on a changing climate Presenting a wide range of valuable lessons learned which can be adapted and replicated elsewhere the book appeals to educators and practitioners alike
