Memorandum Of Rhino Poaching:

Memorandum on the Budget Estimates of the Government of Assam Assam (India). Finance Department,1970

Federal Register ,2013-09 **Youth Revolution** Kiara Nirghin,2019-01-01 Youth Revolution is the inspirational story of how Kiara Nirghin a sixteen year old high school student from Johannesburg overcame severe health obstacles to win the grand prize at the 2016 International Google Science Fair for her unique and innovative solution to worldwide drought Having experienced bacterial meningitis undiagnosed bilharzia and severe weight loss Kiara was forced to postpone her school career for hospitalisation with a real chance of losing her hearing her sight and the use of her limbs Youth Revolution not only covers her journey from the hospital bed to the international stage as the winner of the science award but also looks at issues surrounding stagnant youth innovation while considering the dangers of lacking diversity in STEM science technology engineering and maths The book includes contributions from prominent women in science and education among them Malala Yousafzai the Pakistani activist for female education and the youngest Nobel Prize laureate Youth Revolution is a deeply human and truly inspirational real life story that will enthrall teenagers and adults alike proving that even ordinary teenagers can do extraordinary things *The Violence of Conservation in Africa* Ramutsindela, Maano,Matose, Frank,Mushonga, Tafadzwa,2022-01-11 Offering insights on violence in conservation this timely book demonstrates how and why the state in Africa pursues conservation objectives to the detriment of its citizens It focuses on how the dehumanization of black people and indigenous groups the insertion of global green agendas onto the continent a lack of resource sovereignty and neoliberal conservation account for why violence is a permanent feature of conservation in Africa *OECD Environmental Performance Reviews: South Africa 2013* OECD,2013-12-03 This report evaluates South Africa s progress towards sustainable development and green growth with a focus on policies that provide incentives to protect South Africa s exceptionally rich biodiversity and promote more effective and efficient environmental management Environmental Humanities of Extraction in Africa James Ogude,Tafadzwa Mushonga,2022-08-17 This book brings together perspectives on resource exploitation to expose the continued environmental and socio political concerns in post colonial Africa The continent is host to a myriad of environmental issues largely resulting from its rich diversity of natural resources that have been historically subjected to exploitation Colonial patterns of resource use and capital accumulation continue unabated making environmental and related socio political problems a dominant feature of African economies The book pursues the manifestation of these problems through four themes environmental justice violent capitalocenes indigenous knowledge and climate change The editors locate the book within the broad fields of political ecology and environmental geopolitics to highlight the intricate geographies of resource exploitation across Africa It uniquely focuses on the socio political and geopolitical dynamics associated with the exploitation of Africa s natural resources and its people The case studies from different parts of Africa tell a compelling story of resource exploitation related issues of environmental degradation in a

continent particularly vulnerable to climate change and the continued plundering of its natural resources The book will be of great interest to scholars and students from the interdisciplinary fields of the environmental humanities and environmental studies more broadly as well as those studying political ecology environmental policy and natural resources with a specific focus on Africa

Global Ecopolitics Peter J. Stoett, 2019-01-01 Despite sporadic news coverage of extreme weather events high level climate change diplomacy special UN days of celebration and popular media references to impending ecological collapse most students are not exposed to the detailed presentation and analysis of the international relations and diplomacy of environmental policy making Comprehensive and accessibly written for first year or second year undergraduates the second edition of Global Ecopolitics provides students with a panoramic view of the policymakers and the structuring bodies involved in the creation of environmental policies Detailing a considerable amount of environmental activity since its initial 2012 publication this up to date second edition uses an applicable framework of systemic analysis and important case studies that push students to form their own conclusions about past efforts present needs and future directions

Protecting Forest and Marine Biodiversity Ed Couzens, Alexander Paterson, Sophie Riley, Yanti Fristikawati, 2017-11-24 This timely book contributes to discussions on the best legal practices to use to promote conservation protection and sustainable use of biological diversity in forest and marine areas The breadth of issues explored across these two themes is immense and the book identifies both key differences and striking commonalities between them

Wildlife Crime Great Britain: Parliament: House of Commons: Environmental Audit Committee, 2012-10-18 Wildlife legislation has become so complex that prosecutions fail and even specialist enforcement professionals struggle to implement it effectively Hundreds of birds of prey have been deliberately poisoned with substances such as carbofuran that have no legal use and the Government could easily make possession an offence The lack of sentencing guidelines on wildlife offences means that some offenders are being neither punished nor deterred in the courts The CPS is also failing to train its prosecutors to handle complex wildlife cases Furthermore the inflexible implementation in UK law of international agreements covering the trafficking of endangered species squanders limited resources The Government has maintained funding for specialist wildlife crime investigation and enforcement but this is provided on an ad hoc basis reducing operational effectiveness Funding provided to monitor wildlife crime on the internet was too short term to attract a suitably qualified individual to fill the post In 2004 the Committee called for a new database to record all wildlife crime but this has still not been introduced Internationally this report also examines how the rhino tiger and elephant are being driven to extinction by growing demand for illegal wildlife products in south east Asia and China The Government needs to exert robust diplomatic pressure in favour of the development and enforcement of wildlife law at the next CITES meeting in March 2013 In particular the Government should focus attention on the damaging effect of one off sales of impounded ivory which has been found to actually fuel demand for ivory products and seek an unequivocal international ban on all forms of ivory
