Nato Strategy And Out Of Area Operations Defense:

NATO Strategy and Out-Of-Area Operations School of Advanced Military Studies,2014-10-25 This book examines the viability of recent NATO out of area operations specifically in Kosovo and Afghanistan It illustrates that the complex decision making bureaucracy of NATO can be a detriment to the capabilities of the alliance and limits the strategic options available to the organization By studying strategy development after the end of the Cold War and leading up to the commitment of NATO to the ISAF it becomes clear that these structures and processes do not easily facilitate the formation of a coherent strategy that meets alliance objectives During times of conflict especially those well outside of alliance boundaries more flexible and adaptable institutional structures are necessary for effective war prosecution Through this approach it becomes apparent that the anticipated new strategic concept must once again adapt the alliance in order to remain relevant in the contemporary security environment   *Germany, NATO's Out-of-area Operations, and the CSDP* Kent S. Oglesby,2014 Germany stands as a pivotal country within the NATO alliance it is an economic superpower and occupies a central geographic and political position in Europe Germany s defense policy and its approach to alliance commitments will have a significant impact on the success or failure of NATO strategy However its participation in post Cold War NATO combat operations has varied from full commitment to outright abstention This paper will explore the reasons behind Germany s inconsistent support of NATO combat missions in the Balkans Bosnia Herzegovina and Kosovo Afghanistan and Libya Given the parallel development of a security framework within the European Union it will also examine the EU s Common Security and Defense Policy and evaluate its viability as an alternative to NATO as Germany s primary military alliance   Strategic Forum ,1994   **Bulletin of the Atomic Scientists** ,1986-01   **The Future of NATO's Tactical Air Doctrine** Linda E. Torrens,1997 This study analyzes the need for changes to the North Atlantic Treaty Organization NATO airpower doctrine to reflect current post cold war realities NATO air doctrine does not yet reflect the actuality of today s operations nor does it anticipate the probable future employment of NATO s airpower Out of area operations and Partnership for Peace participation in NATO operations will have profound effects on combined doctrine training organizational structures exercises and employment of forces NATO s tactical doctrine revision process served the alliance well during the cold war But today the international environment has drastically changed Both the nature of the threat and the use of NATO airpower during conflict have changed The current doctrinal revision process has proved too slow and cumbersome to provide adequate direction for air strategists during ongoing operations There are many new doctrinal areas that must be thoroughly addressed so that NATO can chart a course for the future that in the end provides the best most effective mix of forces

The Defence Industrial Triptych Henrik Heidenkamp,John Louth,Trevor Taylor,2015-02-20 The relationship between government and the businesses that contribute towards the defence and security of the state is a critical one it often underscores a modern state s foreign policy and sense of place in the world Yet despite its clear importance this subject is

underexplored and rarely analysed in a rigorous manner As a consequence government defence industrial policies if they exist at all often seem somewhat contrived ill considered and contradictory The Defence Industrial Triptych systematically analyses the components and drivers of the relationships that bind a government to its defence industrial base by examining three major case studies the UK US and Germany who between them account for over three quarters of NATO defence spending The features of their defence industrial relationships whether common or unique provide vital lessons for policy makers industrialists and the taxpayer As defence cuts bite across NATO and as the UK approaches the 2015 Strategic Defence and Security Review the relationships this Whitehall Paper considers are more important than ever **NATO and Forward Defense** ,2005 This thesis examines the NATO s adaptation of a new security focus towards forward defense in the 21st Century Until the late 1990 s the strategic focus of NATO was on mutual defense based on a collective response guaranteed by Article 5 of the Washington Treaty Since the adoption of NATO s Strategic Concept 1999 the Alliance has shifted their strategic focus toward a forward defense strategy As NATO assumed more operational responsibilities and deployed forces out of area in non Article 5 missions the disparity of military capabilities operational challenges and cultural and institutional differences within the Alliance gave rise to the question Is NATO the most effective instrument with which to execute a strategy of forward defense A review of the expeditionary campaigns in the Balkans Afghanistan and Iraq determines the efficiency of the Alliance as an expeditionary security actor The modernization of European military capabilities are described in relation to NATO and how these programs either complement or duplicate existing structures and capabilities Furthermore inherent structural flaws in NATO s composition are examined as well as cultural and ideological differences within the Alliance and their effects on out of area operations Finally challenges and issues that may confront NATO in the future during the execution of their forward defense strategy are discussed **Bulletin of the Atomic Scientists** ,1991-11 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin s iconic Doomsday Clock stimulates solutions for a safer world **Europeanisation and the Transformation of EU Security Policy** Petros Violakis,2018-05-15 The aim of this study is to examine the extent to which the end of the Cold War led to Europeanisation in the Common Security and Defence Policy CSDP The analysis takes into consideration previous studies on Europeanisation and its impact on the transformation of national security and defence and attempts to account for the development of Europeanisation and related mechanisms These mechanisms which have been described as framing mechanisms and negative integration incorporate all the major relevant factors identified here i e a common Strategic Culture new security identity domestic political decision making industrial base and defence spending decline that contributed to the realisation of the CSDP The relevance of these factors for CSDP Europeanisation is examined through an historical and empirical analysis and the relationship between the CSDP and North Atlantic Treaty Organization NATO is also

explored This approach facilitates analysis of the debate concerning the emergence of the CSDP and throws light on the political shift that led European Union EU leaders to support the CSDP Another aspect of this study is the empirical examination of the dynamics and limitations of the European defence sector The changes which took place in this sector facilitated the emergence of the CSDP and are therefore analysed in the light of globalisation issues economies of scale economic crises military autonomy new security strategy and Research and Development R D impact This book will be of interest to students of European security EU politics defence studies and International Relations **In Search of European Security** Robert Rudney,Luc Reychler,1986 <u>Defense White Paper</u> ,1989 *NATO's Balancing Act* David Scott Yost,2014 NATO s Balancing Act evaluates the alliance s performance of its three core tasks collective defense crisis management and cooperative security and reviews its members efforts to achieve the right balance among them Yost considers NATO s role in the evolving global security environment and its implications for collective defense and crisis management in the Balkans Afghanistan Africa Libya and elsewhere *Current Military & Political Literature* ,1989 **The European Security and Defence Identity** ,1998 <u>German Foreign and Defence Policy After Unification</u> Lothar Gutjahr,1994 An analysis of the evolution of German foreign and defence policy charting its development since Yalta and examining the different perspectives of each of the parties and the main evolution in their thinking both before and since unification *Strategic Digest* ,2000 *RUSI and Brassey's Defence Yearbook* Royal United Services Institute for Defence Studies,1985 <u>National Journal</u> ,2002-10 **Britain's Defence Dilemma** William Godfrey Fothergill Jackson,1990 Britain is an off shore island of the US and Europe prizing independence yet maintaining the strongest possible links with both Based on many years in Whitehall and interviews with key military personnel and civil servants General Sir William Jackson reveals the formation of British defence policy from the Suez fiasco of 1957 through to the Falklands campaign the shifting strategic balances of the nuclear world and the decline of the communist system today This is an authoritative challenging insider s view of British defence policy its development and future role **Strategic Dilemmas and the Evolution of German Foreign Policy Since Unification** Jeffrey Lantis,2002-09-30 Table of contents
