The Anthropocene Cookbook Zane Cerpina, Stahl Stenslie, 2022-10-18 More than sixty speculative art and design projects explore how art food and creative thinking can prepare us for future catastrophes In the Age of the Anthropocene an era characterized by human caused climate disaster catastrophes and dystopias loom The Anthropocene Cookbook takes our planetary state of emergency as an opportunity to seize the moment to imagine constructive change and new ideas How can we survive in an age of constant environmental crises How can we thrive The Anthropocene Cookbook answers these questions by presenting a series of investigative art and design projects that explore how art food and creative thinking can prepare us for future catastrophes This cookbook of ideas rethinks our eating habits and traditions challenges our food taboos and proposes new recipes for humanity s survival These more than sixty projects propose new ways to think and make food offering tools for creative action rather than traditional recipes They imagine modifying the human body to digest cellulose turning plastic into food tasting smog extracting spices and medicines from sewage and growing meat in the lab They investigate provocative possibilities What if we made cheese using human bacteria enabled human photosynthesis through symbiosis with algae and brought back extinct species in order to eat them The projects are diverse in their creative approaches and their agendas multilayered multifaceted hybrid and cross pollinated The Anthropocene Cookbook offers a survival guide for a future gone rogue a road map to our edible futures

*The Edible Gardens of Ethiopia* Valentina Peveri, 2021-02-16 What is a beautiful garden to southern Ethiopian farmers Anchored in the author s perceptual approach to the people plants land and food The Edible Gardens of Ethiopia opens a window into the simple beauty and ecological vitality of an ensete garden The ensete plant is only one among the many unloved crops that are marginalized and pushed close to disappearance by the advance of farming modernization and monocultural thinking And yet its human companions caught in a symbiotic and sensuous dialogue with the plant still relate to each exemplar as having individual appearance sensibility charisma and taste as an epiphany of beauty and prosperity and even believe that the plant can feel pain Here a different story is recounted of these human plant communities one of reciprocal love at times practiced in an act of secrecy The plot unfolds from the subversive and tasteful dimensions of gardening for subsistence and cooking in the garden of ensete through reflections on the cultural and edible dimensions of biodiversity to embrace hunger and beauty as absorbing aesthetic experiences in small scale agriculture Through this story the reader will enter the material and spiritual world of ensete and contemplate it as a modest yet inspiring example of hope in rapidly deteriorating landscapes Based on prolonged engagement with this virtuous plant of southwestern Ethiopia this book provides a nuanced reading of the ensete ventricosum avant garden and explores how the life in tiny diverse and womanly plots offers alternative visions of nature food policy and conservation efforts
