**Money Logging** Lukas Straumann, 2014 Money Logging investigates what Gordon Brown has called probably the biggest environmental crime of our times the massive destruction of the Borneo rainforest by Malaysian loggers Historian and campaigner Lukas Straumann goes in search not only of the lost forests and the people who used to call them home but also the network of criminals who have earned billions through illegal timber sales and corruption Straumann singles out Abdul Taib Mahmud current governor of the Malaysian state of Sarawak as the kingpin of this Asian timber mafia while he shows that Taib's family with the complicity of global financial institutions have profited to the tune of 15 billion US dollars Money Logging is a story of a people who have lost their ancient paradise to a wasteland of oil palm plantations pollution and corruption and how they hope to take it back Page 4 of cover Dark Commerce Louise I. comprehensive look at the world of illicit trade Though mankind has traded tangible goods for millennia recent technology has changed the fundamentals of trade in both legitimate and illegal economies In the past three decades the most advanced forms of illicit trade have broken with all historical precedents and as Dark Commerce shows now operate as if on steroids tied to computers and social media In this new world of illicit commerce which benefits states and diverse participants trade is impersonal and anonymized and vast profits are made in short periods with limited accountability to sellers intermediaries and purchasers Louise Shelley examines how new technology communications and globalization fuel the exponential growth of dangerous forms of illegal trade the markets for narcotics and child pornography online the escalation of sex trafficking through web advertisements and the sale of endangered species for which revenues total in the hundreds of millions of dollars The illicit economy exacerbates many of the world's destabilizing phenomena the perpetuation of conflicts the proliferation of arms and weapons of mass destruction and environmental degradation and extinction Shelley explores illicit trade in tangible goods drugs human beings arms wildlife and timber fish antiquities and ubiquitous counterfeits and contrasts this with the damaging trade in cyberspace where intangible commodities cost consumers and organizations billions as they lose identities bank accounts access to computer data and intellectual property Demonstrating that illicit trade is a business the global community cannot afford to ignore and must work together to address Dark Commerce considers diverse ways of responding to this increasing challenge

soutient ainsi que loin d'être un Occidental obtus de plus Conrad s'est rapproché de l'Autre asiatique. Il était sans doute une exception, l'époque. Néanmoins, nous ne pouvons pas dire qu'il se pliait à la règle générale.
