MONOPOLY

THE PROPERTY TRADING BOARD GAME

INSTRUCTIONS

BRIEF IDEA OF THE GAME

The idea of the game is to buy and rent or sell properties so profitably that players increase their wealth-the wealthiest becoming the eventual winner. Starting from "GO", move the tokens around the board according to throw of the dice. When a player's token lands on a space not already owned, he may buy it from the Bank. Otherwise it is auctioned off to the highest bidder. The object of owning property is to collect rents from opponents stopping there. Rentals are greatly increased by the building of Houses and Hotels, so it is wise to build them on some of your Building Sites. To raise more money, Building Sites may be mortgaged to the Bank. Community Chest and Chance cards give instructions that must be followed. Sometimes players land in Jail.

CONTENTS:

Game Board, 6 Tokens, 28 Title Deed cards, 1 Pack of Monopoly playing money, 16 Chance cards, 16 Community Chest cards, Package of houses, Package of hotels, 2 Dice.

PREPARATION

Place the board on a table, putting the Chance cards and Community Chest cards face down on their allotted spaces on the board. Each player is provided with one token to represent him on his travels around the board. Each player is given \$1,500. All other equipment goes to the Bank. One of the players is elected Banker. (See Bank and Banker).

MONEY

Each player is given \$1,500 divided as follows: two \$500, four \$100, one \$50, one \$20, two \$10, one \$5, five \$1.

All remaining money goes to the Bank.

TO START THE GAME.

Starting with Banker, each player in turn throws the dice. The player with the highest total starts the play. He places his token on the corner marked "GO", throws the dice and moves his token in the direction of the Arrow the number of spaces indicated by the dice. After he has completed his play, the turn to play passes to the left. The tokens remain on the spaces occupied and proceed from that point on the player's next turn. One or more tokens may rest on the same space at the same time.

According to the space which his token reaches, a player may be entitled to buy Building Sites or other properties-or be obliged to pay rent (if another owns the property), pay taxes, draw a Chance or a Community Chest card, "Go to Jail", etc.

If a player throws doubles he moves his token as usual the sum of the two dice and the space thus reached is effective (i.e., the player is subject to any privileges or penalties pertaining to that space). Retaining the dice he throws again and moves his token as before, and again the space thus reached is effective. If, however, he throws three doubles in succession, he does not move his token on his third throw but immediately "goes to jail" and his turn ends. (See Jail).

Every time that a player's token either lands on or passes over "GO", while going in the direction of the Arrow, the Banker pays him \$200 "Salary".

Who's in the Game? Terri Toles Patkin, 2020-11-20 Some board games like Candy Land Chutes Ladders Clue Guess Who The Game of Life Monopoly Operation and Payday have popularity spanning generations But over time updates to games have created significantly different messages about personal identity and evolving social values Games offer representations of gender sexuality race ethnicity religion age ability and social class that reflect the status quo and respond to social change Using popular mass market games this rhetorical assessment explores board design game implements tokens markers 3 D elements and playing instructions This book argues the existence of board games as markers of an ever changing sociocultural framework exploring the nature of play and how games embody and extend societal themes and values

The Crash of 2016

Thom Hartmann,2013-11-12 The United States is more vulnerable today than ever before including during the Great Depression and the Civil War because the pillars of democracy that once supported a booming middle class have been corrupted and without them America teeters on the verge of the next Great Crash The United States is in the midst of an economic implosion that could make the Great Depression look like child s play In THE CRASH OF 2016 Thom Hartmann argues that the facade of our once great United States will soon disintegrate to reveal the rotting core where corporate and billionaire power and greed have replaced democratic infrastructure and governance Our once enlightened political and economic systems have been manipulated to ensure the success of only a fraction of the population at the expense of the rest of us The result is a for the rich by the rich scheme leading to policies that only benefit the highest bidders Hartmann outlines the destructive forces planted by Lewis Powell in 1971 and come to fruition with the Reagan Revolution that have looted our nation over the past decade and how their actions fit into a cycle of American history that lets such forces rise to power every four generations However a backlash is now palpable against the economic royalists a term coined by FDR to describe those hoarding power and wealth including the bankers oligarchs and politicians who have plunged our nation into economic chaos and social instability Although we are in the midst of what could become the most catastrophic economic crash in American History a way forward is emerging just as it did in the previous great crashes of the 1760s 1856 and 1929 The choices we make now will redefine American culture Before us stands a genuine opportunity to embrace the moral motive over the profit motive and to rebuild the American economic model that once yielded great success Thoroughly researched and passionately argued THE CRASH OF 2016 is not just a roadmap to redemption in post Crash America but a critical wake up call challenging us to act Only if the right reforms are enacted and the moral choices are made can we avert disaster and make our nation whole again
