More Wreck More Wreck:

The Law of Wreck Nicholas Gaskell, Craig Forrest, 2019-11-05 This book covers wreck law as an integrated whole going beyond the question of removal to include issues such as the ownership of wreck and how the law deals with the many commercial law problems arising after ships have been wrecked during the maritime commercial adventure The book offers authoritative guidance on the genesis and meaning of the Nairobi Wreck Removal Convention 2007 and the interpretation of its often complex provisions as they apply both to States trying to use its powers and to shipowners and liability insurers faced by its obligations The authors explain the increasingly complex inter relationship between linked areas of maritime law including salvage intervention and the overlapping international regimes which deal with pollution from oil bunkers or hazardous and noxious substances The book examines how a salvage operation transitions to wreck removal and links the liability provisions with the standard form international commercial contracts actually used by the industry to remove wrecks eg BIMCO s Wreckstage 2010 Wreckhire 2010 and Wreckfixed 2010 It also covers the complex requirements concerning the disposal of wrecks including the latest recycling regulations applicable in 2019 The Law of Wreck will be of value to shipping industry professionals insurers and legal practitioners as well as academics and students of maritime law **SHIPWRECKS**

FOR WALKERS VOL 2 TOM BENNETT, Winter storms keep removing sand to expose remnants of long lost ships on Britain s beaches This book puts names and stories to 50 of these relics which are now regarded as Historic Monuments Go shipwreck hunting on foot and discover something of our forgotten maritime heritage All the Year Round Charles Dickens, 1860 Engines of Redemption R. Scott Huffard Jr., 2019-10-14 After the upheavals of the Civil War and Reconstruction shattered the plantation economy of the Old South white southerners turned to the railroad to reconstruct capitalism in the region Examining the rapid growth systemization and consolidation of the southern railroad network R Scott Huffard Jr demonstrates how economic and political elites used the symbolic power of the railroad to proclaim a New South had risen The railroad was more than just an economic engine of growth it was a powerful symbol of capitalism s advance However as the railroad spread across the region it also introduced new dangers and anxieties White southerners came to fear the railroad would speed an upending of the racial order epidemics of yellow fever train wrecks violent robberies and domination by corporate monopolies To complete the reconstruction of capitalism railroad corporations and their allies had to sever the negative aspects of railroading from capitalism s powers and deny the railroad s transformative powers to black southerners This study of the New South s experience with the growing railroad network provides valuable insights into the history of capitalism how it evolves expands and overcomes resistance Custom and Commercialisation in English Rural Society J. P. Bowen, A. T. Brown, 2016-03-01 English rural society underwent fundamental changes between the thirteenth and eighteenth centuries with urbanization commercialization and industrialization producing new challenges and opportunities for inhabitants of rural communities However our understanding of this period has been shaped by the

compartmentalization of history into medieval and early modern specialisms and by the debates surrounding the transition from feudalism to capitalism and landlord tenant relations Inspired by the classic works of Tawney and Postan this collection of essays examines their relevance to historians today distinguishing between their contrasting approaches to the pre industrial economy and exploring the development of agriculture and rural industry changes in land and property rights and competition over resources in the English countryside These case studies further highlight the regional diversity of medieval and early modern England by focusing on the mixed economies of south western western and northern England and the role of coastal and urban communities within the rural economy Custom was a contested set of rules based upon historical precedent which governed the behaviour of village communities and a key theme of Tawney s Agrarian Problem was the struggle between custom and competition This collection of essays reconsiders the role of custom in medieval and early modern England by arguing that it often facilitated the commercialization of rural society in this period rather than hindering it thereby offering an alternative to the landlord tenant approach Commercialization was often aided by custom because it enabled tenants to accumulate wealth and engage with market forces in ways that were previously impossible Although custom may have featured prominently in popular politics it was also frequently articulated to benefit the commercial and industrial interests of lords Instead of concentrating on a particular period or century Custom and Commercialization has an intentionally broad chronological span ranging from the thirteenth century through to the eighteenth exploring the interactions between custom and commercialisation at a key stage in the economic development of English rural society The contributors include James P Bowen John Broad A T Brown Christopher Dyer John Gaisford Tom Johnson David Rollison Simon Sandall Alexandra Sapoznik William D Shannon Sheila Sweetinburgh and Andy Wood **More Scary Stories to Tell**
