Its All In My Head English Edition:

Heart of Darkness (Fourth International Student Edition) (Norton Critical Editions) Joseph Conrad, 2016-04-04
The Fourth Edition is again based on Robert Kimbrough's meticulously re-edited text. Missing words have been restored and the entire novel has been repunctuated in accordance with Conrad's style. The result is the first published version of *Heart of Darkness* that allows readers to hear Marlow's voice as Conrad heard it when he wrote the story. Backgrounds and Contexts provides readers with a generous collection of maps and photographs that bring the Belgian Congo to life. Textual materials topically arranged address nineteenth-century views of imperialism and racism and include autobiographical writings by Conrad on his life in the Congo. New to the Fourth Edition is an excerpt from Adam Hochschild's recent book *King Leopold's Ghost* as well as writings on race by Hegel, Darwin, and Galton. Criticism includes a wealth of new materials including nine contemporary reviews and assessments of Conrad and *Heart of Darkness* and twelve recent essays by Chinua Achebe, Peter Brooks, Daphne Erdinast, Vulcan, Edward Said, and Paul B. Armstrong among others. Also new to this edition is a section of writings on the connections between *Heart of Darkness* and the film *Apocalypse Now* by Louis K. Greiff, Margot Norris, and Lynda J. Dryden. A Chronology and Selected Bibliography are also included.

Cleaning and Corporate Management Shin Ohmori, 2023-03-27
This book provides a new way of understanding Japanese management by focusing on the relationship between Japanese companies and their social practices. Whereas previous studies have often concentrated on the uniqueness of Japanese companies' systems (e.g., lifetime employment, the seniority system, company-specific unions) or methods (e.g., bottom-up management, Toyota production methods), this book explains the uniqueness of Japanese companies' activities and practices. It especially highlights the day-to-day cleaning activities that many companies have practiced for numbers of years regardless of their size or industry. Activities that continue beyond a certain period of time are called social practices, and the book clarifies how this particular social practice has historically been formed in Japanese companies and then shows what it means to keep cherishing those cleaning practices. This study consists of two parts: historical research and theoretical research. The historical research sheds light on the relationship between Japanese companies and cleaning activities from a historical point of view. On the basis of old literature and in-house documents, the reader can understand how Japanese companies have positioned cleaning practices in the process of increasing their growth potential and competitiveness and in maintaining their businesses. The second part explains theoretically the relationship between cleaning and management with quantitative and qualitative data from Japanese companies today. Using survey results from Japanese companies, the book shows what kinds of organizations will be formed and human resources will be developed if companies have been focusing for many years on 5S activities: Sort, Set in Order, Shine, Standardize, and Sustain, that include cleaning. This part of the book presents the distinctive problem-solving and strategy creation processes of Japanese companies in contrast to the activities of European and American companies.
