*Encyclopedia of Hair* Victoria Sherrow, 2023-03-30 This popular volume on the culture of hair through human history and around the globe has been updated and revised to include even more entries and current information How we style our hair has the ability to shape the way others perceive us For example in 2017 the singer Macklemore denounced his hipster undercut hairstyle a style that is associated with Hitler Youth and alt right men and in 2015 actress Rose McGowan shaved her head in order to take a stance against the traditional Hollywood sex symbol stereotype This volume examines how hair or lack thereof can be an important symbol of gender class and culture around the world and through history Hairstyles have come to represent cultural heritage and memory and even political leanings social beliefs and identity This second edition builds upon the original volume updating all entries that have evolved over the last decade such as by discussing hipster culture in the entries on beards and mustaches and recent medical breakthroughs in hair loss New entries have been added that look at specific world regions hair coverings political symbolism behind certain styles and other topics

Hair Kurt Stenn, 2016-02-15 A microhistory in the vein of *Salt and Cod* exploring the biological evolutionary and cultural history of one of the world's most fascinating fibers Most people don't give a second thought to the stuff on their head but in *Hair* Kurt

Stenn one of the world's foremost hair follicle experts takes readers on a global journey through history from fur merchant associations and sheep farms to medical clinics and patient support groups to show the remarkable impact hair has had on human life. From a completely bald beauty queen with alopecia to the famed hair hang circus act Stenn weaves the history of hair through a variety of captivating examples with sources varying from renaissance merchants' diaries to interviews with wig makers, modern barbers and more. In addition to expelling the biological basis and the evolutionary history of hair, the fiber is put into context: hair in history as tied to textile mills and merchant associations; hair as a construct for cultural and self identity; hair in the arts as the material for artist's brushes and musical instruments; hair as commodity used for everything from the inner lining of tennis balls to an absorbent to clean up oil spills and hair as evidence in criminology. Perfect for fans of Mark Kurlansky, *Hair* is a compelling read based solidly in historical and scientific research that will delight any reader who wants to know more about the world around them.

**Women in the Tatto World** Rhonda R. Dass, 2005 *Dressing for the Culture Wars* Betty Luther Hillman, 2015-10 Style of dress has always been a way for Americans to signify their politics but perhaps never so overtly as in the 1960s and 1970s. Whether participating in presidential campaigns or Vietnam protests, hair and dress provided a powerful cultural tool for social activists to display their politics to the world and became both the cause and a symbol of the rift in American culture. Some Americans saw stylistic freedom as part of their larger political protests, integral to the ideals of self expression, sexual freedom and equal rights for women and minorities. Others saw changes in style as the erosion of tradition and a threat to the established social and gender norms at the heart of family and nation. Through the lens of fashion and style *Dressing for the Culture Wars* guides us through the competing political and social movements of the 1960s and 1970s. Although long hair on men, pants and miniskirts on women and other hippie styles of self fashioning could indeed be controversial, Betty Luther Hillman illustrates how self presentation influenced the culture and politics of the era and carried connotations similarly linked to the broader political challenges of the time. Luther Hillman's new line of inquiry demonstrates how fashion was both a reaction to and was influenced by the political climate and its implications for changing norms of gender, race and sexuality.
