### **Medieval Combat in Colour**

Hans Talhoffer, 2018-05-30. Hans Talhoffer's professional fencing manual of 1467 illustrates the intricacies of the medieval art of fighting, covering both the judicial duel and an officially sanctioned fight to resolve a legal dispute and personal combat.

Combatants in the Middle Ages used footwork avoidance and the ability to judge and manipulate timing and distance to exploit and enhance the sword's inherent cutting and thrusting capabilities. These skills were supplemented with techniques for grappling, wrestling, kicking, and throwing the opponent, as well as disarming him by seizing his weapon. Every attack contained a defence and every defence a counter attack. Talhoffer reveals the techniques for wrestling, unarmoured fighting with the long sword, pole axe, dagger, sword and buckler, and mounted combat. This unparalleled guide to medieval combat, illustrated with 268 contemporary images, provides a glimpse of real people fighting with skill, sophistication, and ruthlessness. This is one of the most popular and influential manuals of its kind.

**Sword Fighting 2** Herbert Schmidt, 2015. In the sequel to the first volume which introduced the long sword, Herbert Schmidt explains single handed sword fighting techniques with a buckler or small shield. This book analyzes historical evidence taken mainly from the 13th century German combat manual Manuscript I 33 or Tower Manuscript, the oldest and most widely trusted European sword fighting manual in existence. Find information on binds, posture, footwork, free fighting, and individual plays taken from the writings of fencing masters Hans Talhoffer, Andre Lignitzer, and Paulus Kal in this modern textbook that allows anyone interested, whether beginner or advanced, to work and improve his single handed sword fighting skills.

**Sword Fighting** Herbert Schmidt, 2014. These also include wrestling at the sword, typical combat sequences, equipment, tips, cutting tests, training, and free fighting, plus an extensive glossary. Round out this new standard work. Its modern approach and numerous photos make this book a valuable textbook and reference work. Herbert Schmidt is the leader of Ars Gladii, the Austrian swordfighting club, and is part of an international research community that is reconstructing historical European swordfighting and awakening it to new life. **The Art of Longsword Fighting** Benjamin J. Smith,2021-09-30 The teaching of Historical European Martial Arts has widespread appeal with numerous clubs in many countries However comparatively few people who run their own club have qualifications that would make them an instructor in traditional martial arts organizations Even those with such qualifications lack in depth cohesive resources for teaching a given style often because they can only work from incomplete sources Thus the need for a

book which is grounded in exhaustive research into historical teaching methods and in particular focusing on the specific style of Sigmund Ringeck who was himself a teacher of fighting arts in the late 14th century or the early or mid 15th century In *The Art of Longsword Fighting* Benjamin J Smith therefore offers the broader information necessary for teachers of historical swordsmanship to deliver courses based on original authentic techniques This includes the various cutting methods the role of competition in learning these arts the mechanics of the interpretive process and insights into how to use a wide range of activities to enhance students experience All of this is achieved through a panoply of photographs showing each move along with explanatory diagrams as well as detailing how and when to introduce each next step in a manner that is faithful to Ringeck s style There is no current literature available which demonstrates how each move should be undertaken and most importantly why each step should be taken in the sequences described There is no doubt that a book of this nature has been long awaited and will be welcomed by instructors and students alike as well as those general readers interested in fencing and the longsword of the Renaissance period
