 Saltman,David A. Gabbard,2010-09-13 The first volume to focus on the intersections of militarization corporations and
 education Education as Enforcement exposed the many ways schooling has become the means through which the expansion
 of global corporate power are enforced Since publication of the first edition these trends have increased to disturbing levels
 as a result of the extensive militarization of civil society the implosion of the neoconservative movement and the financial
 meltdown that radically called into question the basic assumptions undergirding neoliberal ideology An understanding of the
 enforcement of these corporate economic imperatives remains imperative to a critical discussion of related militarized trends
 in schools whether through accountability and standards school security or other discipline based reforms Education as
 Enforcement elaborates upon the central arguments of the first edition and updates readers on how recent events have
 reinforced their continued original relevance In addition to substantive updates to several original chapters this second
 edition includes a new foreword by Henry Giroux a new introduction and four new chapters that reveal the most
 contemporary expressions of the militarization and corporatization of education New topics covered in this collection include
 zero tolerance foreign and second language instruction in the post 9 11 context the rise of single sex classrooms and the
 intersection of the militarization and corporatization of schools under the Obama administration
