Sherlock Holmes through the Microscope Carl Heifetz, 2018-07-31 The life and career of Mr Sherlock Holmes have inspired the interest of many of the brightest intellects in the world They have expended great efforts to penetrate beyond the glimpses afforded us in the 60 published adventures to detect the real underlying character of the best and the wisest man Dr Watson has ever known The Final Problem by A C Doyle To the hundreds of past and present day Sherlockians Holmesians Doyleans we owe a great deal of gratitude for helping to shred the veil which has been created to obfuscate the real character of our remarkable hero from the sainted Christopher Morley and Vincent Starrett to the renowned commentators Ronald A Knox William S Baring Gould Edgar W Smith Sydney C Roberts Michael Harrison Michael Hardwick and many others too numerous to mention Commentators have included bookmen journalists and essayists physicians psychiatrists and pathologists chemists monsignors and vicars barristers and solicitors and automobile executives All have brought their intelligence unique perspectives and most of all a very desperate need for knowledge to this quest their labor of love With great humility but stout heart I feel highly motivated even obligated to attempt to add my voice to this ongoing effort As a microbiologist I hope to bring a different perspective to these studies I am used to dealing with very minute objects that produce consequences much greater than their size would indicate Is not this obsession with minutiae the perfect training and background for one who feels the need to participate in Sherlockian studies I do hope that this makes me somewhat qualified to join in this important area of scholarly research
