Documents Accompanying the Journal of the House Michigan. Legislature, 1891

Teaching and the Case Method Louis B. Barnes, Carl Roland Christensen, Abby J. Hansen, 1994 This third edition of Teaching and the Case Method is a further response to increased national and international interest in teaching teachers and

learning as well as the pressing need to enhance instructional effectiveness in the widest possible variety of settings Like its predecessors this edition celebrates the joys of teaching and learning at their best and emphasizes the reciprocal exchange of wisdom that teachers and students can experience It is based on the belief that teaching is not purely a matter of inborn talent On the contrary the knowledge skills and attitudes that make for excellence in teaching can be analyzed abstracted and learned One key premise of Teaching and the Case Method is that all teaching and learning involve a core of universally applicable principles that can be discerned and absorbed through the study and discussion of cases

Motivation in Learning and Performance in the Arts and Sports Adina Mornell, Frank Heuser, Margaret S. Osborne, Noa Kageyama, 2025-02-27 Motivation is a crucial factor in achieving success in any field but especially in the performing arts and sports where consistent practice discipline and creativity are required to maintain a high level of performance The science of motivation is relevant today more than ever for several reasons First motivation is a fundamental aspect of human behavior and understanding what drives individuals to perform at their best is essential in many contexts including education athletics and the workplace In this period of recovery and reset after pandemic related lockdowns knowledge about motivation can inform personal and policy decisions moving forward Second motivation is critical for achieving goals and an understanding of what motivates individuals can help them aspire to set and achieve realistic and meaningful aims Third motivation is essential for maintaining mental and physical health and wellbeing and an exploration of contributory factors can help individuals manage stress and anxiety

Management of Research and Engineering Jan Paul Hope, 1976 This compendium discusses three topics of interest to managers of scientists and engineers These three topics are development of scientists and engineers for technical management performance appraisal of personnel and means to effectiveness for project managers The discussion of development of technical personnel for management deals with such areas as candidate selection problems and development methods The discussion of performance appraisal begins with a survey of the relevant literature This survey also shows the chronological evolution of performance appraisal concepts as they have developed over this years The discussion of means of effectiveness for project managers begins with the postulation of a knowledge model for the project manager This knowledge model concept is further developed by identifying and discussion of means of effectiveness for project managers begins with the postulation of a knowledge model for the project manager This knowledge model concept is further developed by identifying and discussing three categories of knowledge that the project manager should have A selected bibliography for these three topics is included
