**The Form of Legislation and the Rule of Law** Ronan Cormacain, 2022-12-22 What does the rule of law mean in practical terms for the way that legislation is prepared drafted and presented It is a cornerstone of the UK legal order and requires certain things from the legal system such as that the law must be intelligible predictable and accessible This book examines what those requirements mean for the form that legislation must take Using the rule of law as the starting point the author uses deductive reasoning to determine what flows from this in terms of the form of legislation Each element of the rule of law is analysed to establish principles about the form that legislation ought to take and the book examines how each principle can be given concrete effect The originality lies in the nexus between the rule of law and the

form of legislation Much has been written about the nature and content of the rule of law but relatively little has been devoted to legisprudence the theory and practice of legislation This book now draws these two subjects together in a detailed and innovative way      *Policing Public Protection* Rachael Aplin,2024-12-27 This book explores the effective policing of public protection issues from chapter authors with varied research and practitioner experience The collection is aimed at detective police officers in specialist units response and neighbourhood officers as well as new recruits in policing public protection Each chapter offers an understanding of victimology perpetration and the effective policing and investigation of such crimes It explores questions such as why crimes happen who the victims are what perpetrators do and why they might target certain victims This book explores international literature the evidence base past mistakes and what effective and professional policing should look like The intention is to improve the policing and investigation of such complex crimes Each chapter provides a concise summary a comprehensive literature review and a list of key actions for practice that officers should consider It closes with a list of key resources These chapters specifically cover the following thematic crime areas such as domestic abuse child sexual abuse gendered violence and trafficking This book also speaks to local authorities Social Services Trading Standards professionals in Education Health and Probation academics and Non Government Organisations NGO in the charitable sector      *Sessional Papers* Great Britain. Parliament. House of Commons,1906      *Policing Rape* Katrin Hohl,Elizabeth A. Stanko,2024-07-05 The policing of rape is in permacrisis This book addresses the question of why police investigations continue to fail most rape victim survivors and puts forward a framework for what policing can do to change this Low conviction rates and poor victim survivor experiences are the hallmarks of the rape justice gap Three decades of research policy and legal changes have tweaked rape investigations to alleviate some of their ills however for the majority of victim survivors the process remains gruelling Police forces are notoriously resistant to reform even in the face of rapidly declining public trust The starting point of this book is the recognition that if we want profound change in policing we must try something new To do so the authors move from asking What is it about rape that makes it so difficult for police to investigate it well to asking What is it about the police that makes it so difficult for police to investigate rape well Policing Rape sets out a practice oriented theoretical framework for radically and sustainably transforming rape investigations rape prevention and the quality of officer engagement with victim survivors The authors reflect on the journey of putting this framework into practice within Operation Soteria Bluestone as a step on the path towards a radical transformation of rape policing This book is essential reading for all those looking to understand and improve the policing of rape
