*frames and bases in tensor product of hilbert spaces arxiv org* - May 02 2023

web since tensor product is useful in approximation theory in this article we consider the frames in tensor product of hilbert spaces and extend some of the known results about bases to frames let  $h$  be a separable complex hilbert space as usual we denote the set of all bounded linear operators on  $h$  by  $B(h)$

web mar 27 2019 abstract to construct dual frames with good structure for a given frame is a fundamental problem in the

theory of frames the tensor product duals of tensor product frames can provide a rank one decomposition of bounded antilinear operators between two hilbert spaces this paper addresses tensor product dual frames

web jan 1 2008 abstract in this paper we prove that the tensor product of two sequences is a frame riesz basis if and only if each part of this product is a frame riesz basis using this result we extend some density and sampling theorems to higher dimensions
