

*Mathematical
Treasure-hunt:
Number sense,
operations and
patterns up to 200*

*The first 4 question
cards are
EXAMPLES and can
be used to explain
how the game works
before starting.*

- Cut out each of the question slides and place them around the room. I prestick them onto walls, chairs, tables etc.
- Print out and distribute the answer sheet, one per learner (or team) and set them off to find the answers.
- The answer to the question is the number that they must find for the next question. For example, if the answer to the card they are looking at is 12, then they must look for a card with a 12 at the top left corner. That is their next question.
- Once they return to their starting position, they are done.
