**Making the Most of Small Groups** Debbie Diller, 2023-10-10 Author Debbie Diller turns her attention to small reading groups and the teacher's role in small group instruction. *Making the Most of Small Groups: Differentiation for All* grapples with difficult questions regarding small group instruction in elementary classrooms such as: How do I find the time? How can I be more organized? How do I form groups? How can I differentiate to meet the needs of all of my students? Structured around the five essential reading elements: comprehension, fluency, phonemic awareness, phonics, and vocabulary, the book provides practical tips, sample lessons, lesson plans, and templates, suggestions for related literacy work stations, and connections to whole group instruction. In addition to ideas to use immediately in the classroom, Diller provides an overview of relevant research and reflection questions for professional conversations. *Engaging Students in Academic Literacies* María Estela Brisk, 2014-07-25 The Common Core State Standards require schools to include writing in a variety of genres across the disciplines. *Engaging Students in Academic Literacies* provides specific information to plan and carry out genre-based writing instruction in English for K-5 students within various content areas. Informed by systemic functional linguistics, a theory of language IN USE in particular ways for particular audiences and social purposes, it guides teachers in developing students' ability to construct texts using structural and linguistic features of the written language. This approach to teaching writing and academic language is effective in addressing the persistent achievement gap between ELLs and mainstream students, especially in the context of current reforms in the U.S. Transforming systemic functional linguistics and genre theory into concrete classroom tools for designing, implementing, and reflecting on instruction and providing essential scaffolding for teachers to build their own knowledge of its essential elements applied to teaching the text includes strategies for apprenticing students to writing in all genres, features of elementary students' writing, and examples of practice. *Reading Across Multiple Texts in the Common Core Classroom, K-5* Janice A. Dole, Brady E. Donaldson, Rebecca S. Donaldson, 2014-07 This teacher-friendly resource addresses one of the most important critical reading skills in the Common Core State Standards: reading across multiple texts. As the world grows ever more complicated, students more than ever need to become skillful at reading multiple sources, comparing, contrasting, and integrating texts. Responding specifically to Standards 7 and 9, this guide shows teachers how to work with students as they read, think about, critique, and evaluate multiple texts, including narrative and informational print, graphic, and video, hard copy, and online. The authors provide strategies for helping students answer text-dependent questions, find evidence in a text, and scan for information. Model lessons developed and taught by the authors and their professional colleagues will be especially useful to teachers whether they are beginning or expanding their own teaching of multiple texts. *El-Hi Textbooks & Serials in Print*, 2005, 2005 **El-Hi Textbooks & Serials in Print** Bowker Editorial Staff, 2004-02 **School Library Media Activities Monthly**, 1999 *English Language Arts Strategies for the Inclusive Classroom* Toby Karten, 2019-02-25 All students, including those with reading, writing, language, speaking,
