 offered as a free PDF download from OUP and selected open access locations All over the world economic inclusion has risen
 to the top of the development discourse A well performing education system is central to achieving inclusive development but
 the challenge of improving educational outcomes has proven to be unexpectedly difficult Access to education has increased
 but quality remains low with weaknesses in governance comprising an important part of the explanation The Politics and
 Governance of Basic Education explores the balance between hierarchical and horizontal institutional arrangements for the
 public provision of basic education Using the vivid example of South Africa a country that had ambitious goals at the outset
 of its transition from apartheid to democracy it explores how the interaction of politics and institutions affects educational
 outcomes By examining lessons learned from how South Africa failed to achieve many of its goals it constructs an innovative
 alternative strategy for making process combining practical steps to achieve incremental gains to re orient the system
