## **Modern Science And Philosophy Destroy Christian Theology:**

**Modern Science and Philosophy Destroys Christian Theology (Big Print)** Truman Ardent Smith, 2013-04-01 This is a big print edition of the original publication Truman Ardent Smith explains how Christian theology no longer makes sense in light of modern science and philosophy This is because the Bible was written by humans with an ancient and ignorant outlook in regards to science and philosophy There is only one way to reconcile the Bible with modern science and religion and that is from being ignorant of either one or both of them Bible and or modern science and philosophy **T&T Clark Handbook of Christian Theology and the Modern Sciences** John P. Slattery, 2020-10-01 This handbook surveys the many relationships between scientific studies of the world around us and Christian concepts of the Divine from the ancient Greeks to modern ecotheology From Augustine to Hildegard of Bingen Genesis to Frederick Douglass and physics to sociology this volume opens the intersections of Christian theology and science to new concepts voices and futures The central goal of the handbook is to bring new perspectives to the foreground of Christian theological engagement with science and to highlight the many engagements today that are not often identified as science theology discussions The handbook thus includes several aspects not found in previous handbooks on the same topic significant representation from the three major branches of Christianity Orthodox Roman Catholic and Protestant multiple essays on areas of modern science not traditionally part of the theology and science dialogue such as discussions of race medicine and sociology a collection of essays on historical theologians approaches to nature and science T Catholic Protestant and Orthodox surveys of theology science scholarship in the 20th and 21st centuries and ten explorations in Christian theology today from Einsteinian physics to decolonial sociology The 24 chapters than span the volume offer the reader whether scholar student or layperson an essential resource for any future conversations around science and Christian theology Modern Science and Philosophy Destroy Christian Theology Bernie Dehler, 2014-11-22 Is it possible to disprove the existence of God Seems like most Christians and atheists agree and say no Contrariwise Dr Stenger wrote a book called God The Failed Hypothesis How Science Shows That God Does Not Exist In that same theme comes this booklet in which Bernie explains why he left Christianity for scientific and philosophical reasons Bernie also shares ways that we can now using modern knowledge science and philosophy falsify the existence of God including every version of a Christian God such as Catholic Mormon Pentecostal etc versions If your god is not superfluous then he she they it can be falsified with modern knowledge science and or philosophy Just take any unique specific claims for that god and think about how it comports or not with science and reason And if your god is superfluous then it isn't much of a God That sort of God is indistinguishable from a God that doesn't exist The War on Women P.D. Lingenfelter Highby, 2013 Highby expertly cuts apart the 5000 year history of the war on women so that she can decode and explain the ancient deliberately difficult and elitist historical jargon for the sake of the intelligent general reader Highby surprises us by showing how the war on women always played out as parallel to a war against Nature as well as a class war

Therefore the war devalues Nature slaves and lower class men as well as women This war influenced the Renaissance Spirit Matter split with its witch burnings It applies to current Darwinian versus Creationism arguments too **The Presbyterian and Reformed Review** Benjamin Breckinridge Warfield,1894 Includes section Reviews of recent theological literature

*The American Theological Review* ,1859 *A Corrupt Tree: An Encyclopaedia of Crimes committed by the Church of Rome against Humanity and the Human Spirit* A.S.,2014-01-13 A Corrupt Tree is a unique extensively researched four volume expos of the dark side of the Church of Rome It reveals that for nearly two thousand years the Church s fundamental characteristic has been its self serving abuse of religio corporate power A large proportion of this first volume provides a detailed catalogue of the multitude of unholy popes Included are those who were immature capricious corrupt lascivious fanatical senile truly mad megalomaniac tyrannical murderous and wholesale killers It confirms that for many many centuries the popes were corrupt cruel inhumane and despotic In an age of savagery they were the leaders in barbarity in the subsequent age of enlightenment they have persistently resisted the march of progress Additionally the popes were wholesale killers who made the principle of assassination a law of the Christian Church Accordingly the Church has shed more innocent blood than any other institution that has ever existed among mankind Here also are presented the cupidity corruption and sexual misconducts of lesser ecclesiastics including cardinals bishops priests monks and nuns Pope Honorius III for example described his priests as worse than beasts wallowing in their dung The Church s ruthless stranglehold on knowledge and learning is catalogued in detail Mathematics philosophy and science were repressed Selected applied theology ruled the world Everything was explained but nothing was understood The chapters on censorship reveal that even works of considerable literary or philosophical merit did not escape A large number of writings which eventually became classics of European culture were condemned and prohibited The Church also exhibited a vitriolic hatred of those who translated the Bible into the vernacular Many of these men were annihilated Holy books were burned in large numbers particularly the Jewish Talmud It is clearly demonstrated that the Church held back civilisation for over fifteen hundred years Century after century passed away and left the peasantry but little better than the cattle in the fields Finally the unholy behaviours of the numerous popes cardinals and lesser ecclesiastics are shown to establish unequivocally that the Church of Rome is neither holy nor apostolic The ultimate message of these volumes is that to become an exemplary institution and to play a truly humane role in the world s future the Catholic Church must change **International Journal of Ethics** ,1905

*The Pacific* ,1908 *Concordia Theological Monthly* ,1950 Includes section Book review Literatur *Symposium on Puritanism and Progress (JCR Vol. 06 No. 01)* R. J. Rushdoony,Charles Dykes,E. L. Hebden Taylor,James R. Payton Jr.,Aletha Joy Gilsdorf,Judy Ishkanian,James B. Jordan,William Symington, D.D., In the previous issue of The Journal we presented the case for the puritans as reforms who were determined to reconstruct society in terms of Biblical law Not every Puritan had this vision of course not every Puritan agreed about the nature of Biblical law But sufficient numbers of them did share this

vision especially in New England and the world still reaps the benefits of their efforts This is another way of saying that the Puritans expected success to come their way and when it did it left its mark on Western Civilization By unleashing the talents of men in every station in life the Puritan doctrine of the priesthood of all believers transformed the West A grass roots reconstruction began which was to lead eventually to the American War of Independence The top down hierarchy of Anglicanism did not take root in the Puritan colonies Because of this American political life was freed from the dead hand of a church state bureaucratic tradition But it was not simply in the realm of politics that Puritanism left its mark Consider modern science Without the doctrines of Puritanism it is unlikely that modern science ever would have appeared The calling before God the legitimacy of the mechanic s trade the optimism concerning the study of nature and many other Puritan concepts brought forth modern science Two articles one by Charles Dykes and the other by E L Hebden Taylor demonstrate this forcefully Christians seldom know what modern historians of science know namely that Puritanism was basic to the advent of modern scientific progress This ingrained optimism stemmed from their eschatological presuppositions as James Payton demonstrates with respect to English Puritans and Aletha Joy Gilsdorf shows with respect to the first generation of colonial Puritans And then there was Oliver Cromwell Judy Ishkanian provides us with a detailed biography of this crucially important military and political leader of the Puritan forces in England Who was he how did he accomplish his goals and where did he get his vision These questions are answered in considerable depth given the limitations of a single chapter in biography This issue of The Journal is a continuation of an investigation into the nature of the Puritan reformation It is followed by the third and final volume Puritanism and Society Anyone who wants access to illuminating introductions to the impact of Puritanism outside of the institutional church as such should have these volumes in his library They will serve later Christian scholars as starting points for further research Even more important they open up a whole new world of Christian history and inspiration for the Puritans vision that all of the earth is open ground for the establishment of God s Kingdom can be revived in our day That vision can become a heritage for later generations But to become a part of that heritage men must reconsider the standard accounts of Puritanism s influence in the less informed but widely read secular textbooks For Christians who want to learn why and how Puritan theology led to Puritanism s reconstruction of seventeenth century thought and culture these issues of The Journal are indispensable
