**Inequality in America** Stephen M. Caliendo,2018-05-15 Why does inequality have such a hold on American society and public policy And what can we as citizens do about it Inequality in America takes an in depth look at race class and gender based inequality across a wide range of issues from housing and education to crime employment and health Caliendo explores how individual attitudes can affect public opinion and lawmakers policy solutions He also illustrates how these policies result in systemic barriers to advancement that often then contribute to individual perceptions This cycle of disadvantage and advantage can be difficult though not impossible to break Representing and What Can I Do feature boxes throughout the book highlight key public figures who have worked to combat inequality and encourage students to take action to do the same The second edition has been thoroughly revised to include the most current data and to cover recent issues and events like the 2016 elections and the Black Lives Matter movement It now also includes a brand new chapter on crime and criminal justice and an expanded discussion of immigration Concise and accessible Inequality in America paves the way for students to think critically about the attitudes behaviors and structures of inequality **ECRM2016-Proceedings of the 15th European Conference on Research Methodology for Business Management** " Vladlena Benson,Fragkiskos Filippaios,2016-05-20 An Age of Accountability John L. Rury,2023-10-13 An Age of Accountability highlights the role of test based accountability as a policy framework in American education from 1970 to 2020 For more than half a century the

quest to hold schools and educators accountable for academic achievement has relied almost exclusively on standardized assessment. The theory of change embedded in almost all test based accountability programs held that assessment with stipulated consequences could lead to major improvements in schools. This was accomplished politically by proclaiming lofty goals of attaining universal proficiency and closing achievement gaps which repeatedly failed to materialize. But even after very clear disappointments no other policy framework has emerged to challenge its hegemony. The American public today has little confidence in institutions to improve the quality of goods and services they provide especially in the public sector. As a consequence many Americans continue to believe that accountability remains a vital necessity even if educators and policy scholars disagree.

Thebenyane, Andre van der Bijl, Johannes (Hannes) L. van der Walt, 2019-12-12. This book is a collection of chapters based on original research dealing with issues of discipline and disciplinary practices in educational institutions. The aim of the book is to provide a scholarly and scientific perspective on the current state of discipline and disciplinary practices in schools and tertiary education settings. The issue of discipline is investigated from diverse paradigmatic and methodological perspectives presenting empirical as well as also philosophical research. The empirical perspective includes quantitative positivistic qualitative interpretive and mixed methods pragmatic designs and worldviews. This book offers a ground breaking contribution to the field of learner and student discipline with insights into disciplinary practices and issues in educational institutions not hitherto researched such as Technical Vocational Education and Training colleges and universities.

Akademische Arbeit aus dem Fachbereich Didaktik Mathematik Sprache Deutsch. Abstract: This paper aims to explore on Mathematics teachers' understandings of the Mathematics curriculum in the Zaka West cluster due to an outcry over poor Mathematics passes from both urban and rural schools in Zimbabwe. A study was undertaken to explore and illuminate the complexities faced by O Level Mathematics teachers in the implementation of a Mathematics curriculum so that necessary recommendations that would help improve

the teaching and learning of Mathematics would be made to all participating schools and other teachers across the country. The major aim of the study was to stimulate Mathematical thinking in teachers and to revitalize the teaching of the subject in Zimbabwean Secondary Schools. The following research questions will be answered: What do the teachers perceive to be the aims of the 4008 ZIMSEC O Level Mathematics syllabus? What are the pedagogical strategies that the teachers use in Mathematics lessons? How are these pedagogical strategies, methodology and REACT related to the nature of O Level Mathematics? What do O Level Mathematics teachers perceive as the challenges faced in the teaching and learning of 4008 Mathematics? How can these challenges be eliminated or reduced? This paper is organised as follows: the first part is the conceptual framework of the study; the second part presents the methodologies employed in the study; the third part is the section on the findings; the fourth part discusses the findings, which is followed by the fifth and last part, which is the conclusion.
