Annual Performance Plan Mpumalanga (South Africa). Department of Education, 2016 Annual Report Mpumalanga (South Africa). Department of Education, 2016 Democratic Evaluation and Democracy Donna Podems, 2017-02-01

Democratic evaluation brings a way of thinking about evaluation's role in society and in particular its role in strengthening social justice. Yet the reality of applying it and what happens when it is applied particularly outside the West is unclear. Set in South Africa, a newly formed democracy in Southern Africa, the book affords an in-depth journey that immerses a reader into the realities of evaluation and its relation to democracy. The book starts with the broader introductory chapters that set the scene for more detailed ones which bring thorough insights into national government, local government and civil societies' experience of evaluation, democratic evaluation and their understanding of how it contributes to strengthening democracy or not. A teaching case, the book concludes by providing guiding questions that encourage reflection, discussion and learning that ultimately aims to inform practice and theory.

Methodologies and Intelligent Systems for Technology Enhanced Learning, 9th International Conference, Workshops Elvira Popescu, Ana Belén Gil, Loreto Lancia, Luigia Simona Sica, Anna Mavroudi, 2019-06-24. This book is based on the 9th International Conference in Methodologies and Intelligent Systems for Technology Enhanced Learning which was hosted by the University of Salamanca and held in Vila Real, Spain from 26th to 28th June 2019. Expanding on the topics of the evidence-based TEL workshops series, it provides an open forum for discussing intelligent technologies for learning. In particular, it discusses recommendation mechanisms that enable us to tailor learning to different contexts and people, e.g. by considering their personality and learning analytics that help augment learning opportunities, e.g. by supporting the adaptation of the learning material. In addition to technologies, it covers methods from different fields such as educational psychology or medicine and from diverse communities co-working with people such as making communities and participatory design communities to help create novel TEL opportunities. Further, it describes the use of methods and technologies to investigate and enhance learning for fragile users like children, the elderly and those with special needs.
