Cone, 2013-08-23 This volume of essays centers on the theme of doing Christian theology in the present postmodern context a consistent theme of the teaching of John D Castelein The work will celebrate and honor John s years of service by representing reflections of his teaching in the thought of his students and colleagues The essays range over such topics as theological reflections on the postmodern philosophical themes the relations between Christian theology and culture the contributions of philosophical hermeneutics for Christian theology and the challenges of engaging in ministry in a postmodern context The seventeen contributors to the volume are former students and both present and former colleagues involved in various ministries be they in a college setting or in a local church *The Road to Vatican II* Maureen Sullivan (O.P.), 2007 The Second Vatican Council produced a charter for the church of the twentieth century and beyond Part of the council s fascination is that it involves many stories The Road to Vatican II is an attempt to tell the story behind the stories of this landmark in church history Somehow more than 2 500 bishops who often disagreed on the most critical issues managed to produce sixteen documents that touched the very essence of the Catholic faith How is it possible that so much could have been accomplished in four brief council sessions from 1962 1965 How did the church move from Pius IX at Vatican I 1869 70 who espoused a rigid hierarchical model of church to John XXIII at Vatican II 1962 65 who ushered in a collegial communio model of church In

answering these questions Sullivan's book highlights those theologians whose efforts over the years before the council were actually the seeds of what flourished at the council. These theologians were indeed prophets among us often suffering because of their convictions. Ultimately they were instruments of the Holy Spirit in our midst. They offered the church a renewed vision of the faith and a methodology to facilitate theological endeavor. They also rediscovered in the New Testament a language of life that could speak to contemporary men and women. Hence this book presents the incredible theological changes that took place on the road to Vatican II; it examines the contributions of some of the key theologians on this road and it finds evidence of their influence in key documents of the Second Vatican Council. The Writer and the Cross Darren J.N. Middleton, 2022-07-14 Spiritually engaged readers commonly look toward fiction to better understand the depth of a faithful life and Christians are no exception. Many followers of Jesus value beautifully written, deftly characterized and pulse quickening literary art that seems more satisfying than dry, tedious doctrinal textbooks. This book surveys 12 pieces of historical fiction that feature notable Christian thinkers. They include an illustrated children's book about St. Irenaeus of Lyons, a novel about Martin Luther's Reformation, a screenplay focusing on Dietrich Bonhoeffer, and even a story about Pope Francis narrated in popular manga style. Rather than arcane literary analyses, this book provides thoughtful and sometimes painful interviews with the authors of the covered works. Most interviewees are little known or emerging writers. Some have published their work with a church or denominational press, others with a major publishing empire or popular print on demand platforms. Storytellers reflect on their literary choices and the contexts of their writing, sharing what modern Christians can learn from historical religious fiction.

Systematic Theology Francis Schussler Fiorenza, John P. Galvin, 2011-05-01 Unique among contemporary resources, the landmark *Systematic Theology* and its distinguished contributors present the major areas or loci of Roman Catholic theology in light of contemporary developments, especially the sea change since Vatican II. It thought the best new historical studies of traditional doctrines and Scripture and the diverse creative impulses that come from recent philosophy and hermeneutics, culture and praxis, and ecumenical contacts. This new volume combines and updates both previous volumes, incorporates into the framework nearly twenty years of fresh thought and bibliography in each area, and adds revisions to key articles to take account of a diverse, fluid, and postmodern situation.

Explorations in Twentieth-century Theology and Philosophy Ann Loades, 2023-04-11 Ann Loades has been instrumental in bringing forward for the attention of readers in later generations voices from the past, notably highlighting the work of pioneering women such as Evelyn Underhill and Dorothy L. Sayers, as well as advancing the study of better known Anglican forebears C. S. Lewis and Austin Farrer, always with her own distinctive concerns. A key interpreter of the Anglican tradition and with a keen eye to ensure the full recognition of women, these studies by Ann Loades are essential reading in Anglican feminist and twentieth-century theology.
