1. A crate filled with delicious junk food rests on a horizontal floor. Only gravity and the support force of the floor act on it, as shown by the vectors for weight  $W$  and normal force  $n$ .

- a. The net force on the crate is (zero) (greater than zero).  
b. Evidence for this is no acceleration.

2. A slight pull  $P$  is exerted on the crate, not enough to move it.

- a. The force of friction  $f$  acting on the crate is (less than) (equal to) (greater than)  $P$ .  
b. The net force on the crate is (zero) (greater than zero).

3. Pull  $P$  is increased until the crate begins to move. It is pulled so that it moves with constant velocity across the floor.

- a. Friction  $f$  is (less than) (equal to) (greater than)  $P$ .  
b. Constant velocity means acceleration is (zero) (greater than zero).  
c. The net force on the crate is (less than) (equal to) (greater than) zero.

4. Pull  $P$  is further increased and is now greater than friction  $f$ .

- a. The net force on the crate is (less than) (equal to) (greater than) zero.  
b. The net force acts toward the right, so acceleration acts toward the (left) (right).

5. If the pulling force  $P$  is 150 N and the crate doesn't move, what is the magnitude of  $f$ ? 150 N  
6. If the pulling force  $P$  is 200 N and the crate doesn't move, what is the magnitude of  $f$ ? 200 N  
7. If the force of sliding friction is 250 N, what force is necessary to keep the crate sliding at constant velocity? 250 N  
8. If the mass of the crate is 50 kg and sliding friction is 250 N, what is the acceleration of the crate when the pulling force is 250 N? 0 m/s<sup>2</sup> 300 N? 1 m/s<sup>2</sup> 500 N? 5 m/s<sup>2</sup>

**Integrated Sustainability Reporting** Laura Bini, Marco Bellucci, 2019-08-19 This book proposes an integrated approach to sustainability reporting the goal being to overcome certain limitations of the well established additive approach where the reporting of environmental social and economic issues is sequential but separate It argues that in order to successfully communicate its commitment to sustainability a company should report on how environmental and social issues impact its way of doing business namely its business model contributing to value creation Thus a reporting framework for business models that encompasses sustainability is presented In turn a number of illustrative examples are examined to show how business model reporting could be optimally used to provide effective and integrated sustainability reporting The book also offers a broad analysis of corporate sustainability reporting which includes a discussion of the theoretical background an explanation of why companies provide sustainability reporting a description of the current regulatory framework for sustainability disclosure and a review of sustainability reporting literature that shows the main characteristics of sustainability disclosure practices Given its scope the book will be of interest to all researchers and practitioners working for companies or organizations that aim to support implement and improve their sustainability reporting by adopting a more integrated approach that interconnects environmental and social aspects with the economic and financial results via the business model The book also offers a valuable reference guide for social science researchers including PhD students interested in a discussion of the latest literature on sustainability corporate social responsibility and the communication of business models **Thirty-three** ,1964 **The Palgrave Handbook of Servant Leadership** Gary E. Roberts, 2023-04-11

This reference work offers comprehensive perspectives on servant leadership Featuring a cadre of leading world class scholars practitioners and contributing authors from diverse fields of inquiry it aims to collate research on servant leadership with a particular focus on its moral and spiritual dimensions It is divided into sections that center on topics such as character philosophical influences diversity and inclusion critiques of servant leadership as well as examples of servant leaders Though first introduced in the 1970 by Robert Greenleaf the field of servant leadership is still lacking consensus on a definition and a theoretical framework The goal of this reference work is to begin to fill this gap by assembling the scholarship of the top scholars in this field and providing a go to source for information on the theory and practice of servant leadership This handbook will serve as an essential resource for researchers scholars and students of organizational behavior human resource management and business ethics as well as consultants and business leaders interested in discovering the best leadership models to suit contemporary organizations **Annuario della Scuola Archeologica di Atene e delle Missioni**

**Italiane in Oriente, Supplemento 13. Athens and Attica from the Late Bronze Age to the end of the Archaic period. The spatial roots of politics and society** Alain Duploux, Nikolaos Arvanitis, 2024-12-27 This volume contains the proceedings of the international conference Attica from the Late Bronze Age to the End of the Archaic Period The Spatial Roots of Politics and

Society organised by the Italian Archaeological School at Athens and the University Paris 1 Panth on Sorbonne on 10 and 11 June 2021 The venue was originally scheduled for 13 and 14 March 2020 in Athens but the event fell victim to the global COVID19 crisis and was eventually reorganised as an online conference in June 2021 The conference was organised in connection with the research project Lands of Meaning A GIS Study of Space and Social Praxis in Ancient Attica from the Mycenaean Age to the Birth of Democracy 1200 480 BC which was carried out as a Marie Sk odowska Curie Action MSCA between 2017 and 2019 at the University Paris 1 Panth on Sorbonne The Lands of Meaning project aimed to re examine the Athenian territory from the end of the Bronze Age to the beginning of the Classical period by considering Attica as a space that was socially constructed through a constant dialogue between the landscape and the communities that inhabited it The aim of the project was to integrate the large amount of archaeological data collected throughout the 20th c into a heuristic and hermeneutic framework that considers the spatial and ecological dimensions of historical cultural political and social phenomena The Lands of Meaning project was originally conceived as a two year pilot project to introduce new digital methods and heuristic social theories of space The project will be further developed at the University Paris 1 Panth on Sorbonne as a long term endeavour to incorporate space into archaeological thinking and to consider the material and territorial conditions of the emergence of the city state in Athens and more broadly in ancient Greece The conference programme can be found below The presentations were not recorded to allow for a lively discussion Most of the speeches given online were then converted into the contributions collected in this volume supplemented by a chapter by Pavlos Karvonis on Roman Attica and a description of the Thorikos Archive by the Belgian team Unfortunately some of the lectures given at the conference could not be included in the volume First of all we would like to thank Emanuele Papi Director of the Italian Archaeological School at Athens who fully supported the project and proposed to host the conference which was to take place in March 2020 at the School s premises in Athens Our heartfelt thanks go to our Greek colleagues from the Hellenic Ministry of Culture and the Ephorates of Antiquities of Attica Eleni Andrikou Stella Chrysoulaki Anastasia Gadolou and Christina Merkouri who agreed to chair the conference sessions and led fascinating and disciplined discussions We also invited four titans as we amicably called them during the conference to a final round of talks Tonio Ho lscher Irene Lemos Robin Osborne and Francis de Polignac took up the challenge and drew fascinating conclusions from the presentations as well as some key ideas for the elaboration of ancient history from archaeological evidence As it would have been difficult to render these lively thoughts into formal papers we have decided to preserve them in our oral memory Finally we would like to thank the Italian Archaeological School at Athens for including the publication of the conference in its collections as well as the two anonymous reviewers whose comments have given the authors food for thoughts This book was published with the support of the Marie Sk odowska Curie Action the University Paris 1 Panth on Sorbonne and the research unit Trajectoires UMR 8215 While Nikolaos Arvanitis was involved in the organisation of the conference as part of his MSCA scholarship Alain

Duploup compiled and edited all the contributions on his own. We are also indebted to Mariana Silva Porto who thoroughly re-read all contributions especially those written by non native speakers and significantly improved the texts. As a doctoral student working on the Paris project she deserves full credit for contributing to the edition of the volume.

**Quality and Safety in Nursing** Gwen Sherwood, Jane Barnsteiner, 2021-12-13. Quality and Safety in Nursing First published in 2012. Quality and Safety in Nursing was the first volume of its kind to explore the role of the nursing community in improving quality of care and patient safety. Now in its third edition this comprehensive resource remains essential reading for all those involved in equipping current and future nurses with the knowledge, skills and attitudes (KSAs) needed to deliver exceptional care. The new edition begins with an overview of the Quality and Safety Education for Nurses (QSEN) initiative and its origins in the Future of Nursing report published in 2010, before defining each of the six QSEN competencies: patient centered care, teamwork and collaboration, evidence based practice, quality improvement, safety, and informatics. The content incorporates the 2020-2030 Future of Nursing recommendations as well as the 2021 AACN Essentials for Education competencies. Finally, the text presents both teaching and clinical application strategies for building and implementing a culture of quality and safety across settings. Integrates QSEN competencies in simulation and provides new instructional and practice approaches. Features redesigned chapters for reimagining classroom and clinical learning, applying reflective practices and transforming education and practice through inter professional teamwork. Provides new case studies and personal accounts highlighting key principles and their application in real world scenarios. Contains new and expanded material on assessment and evaluation, transition to practice, leadership and management, and primary outpatient and ambulatory care. Offers a new discussion of future research directions and global perspectives on quality and safety. Quality and Safety in Nursing Third Edition is required reading for graduate students in nursing education programs, faculty in nursing schools, nursing and healthcare educators, clinical nurse specialists, clinical administrators, and those working in professional development and quality improvement.

*Current Index to Journals in Education*, 1992. *Streaming and Copyright Law* Lasantha Ariyaratna, 2022-09-05. This book examines the challenges posed to Australian copyright law by streaming from the end user perspective. It compares the Australian position with the European Union and United States to draw lessons from them regarding how they have dealt with streaming and copyright. By critically examining the technological functionality of streaming and the failure of copyright enforcement against the masses, it argues for strengthening end user rights. The rising popularity of streaming has resulted in a revolutionary change to how digital content such as sound recordings, cinematographic films, and radio and television broadcasts is used on the internet. Superseding the conventional method of downloading, using streaming to access digital content has challenged copyright law because it is not clear whether end user acts of streaming constitute copyright infringement. These prevailing grey areas between copyright and streaming often make end users feel doubtful about accessing digital content through streaming. It is uncertain whether exercising the right

of reproduction is appropriately suited for streaming given the ambiguities of embodiment and scope of substantial part. Conversely the fair dealing defence in Australia cannot be used aptly to defend end users acts of streaming digital content because end users who use streaming to access digital content can rarely rely on the defence of fair dealing for the purposes of criticism or review news reporting parody or satire or research or study. When considering a temporary copy exception end users are at risk of being held liable for infringement when using streaming to access a website that contains infringing digital content even if they lack any knowledge about the content's infringing nature. Moreover the grey areas in circumventing geo blocking have made end users hesitant to access websites through streaming because it is not clear whether technological protection measures apply to geo blocking. End users have a severe lack of knowledge about whether they can use circumvention methods such as virtual private networks to access streaming websites without being held liable for copyright infringement. Despite the intricacies between copyright and access to digital content the recently implemented website blocking laws have emboldened copyright owners while suppressing end users access to digital content. This is because the principles of proportionality and public interest have been given less attention when determining website blocking injunctions.

*Education for Sustainability in Tourism* Gianna Moscardo, Pierre Benckendorff, 2015-10-21

Sustainability is a dominant theme in tourism practice. Increasingly research and education of tourism stakeholders is also necessary in improving sustainable tourism practice. This book pays systematic attention to education for sustainability in tourism and is thus a valuable resource for sustainable tourism educators and scholars. The book is divided into four parts. Part I provides a reference for educators seeking to understand core knowledge areas: ethics, corporate social responsibility and governance. Part II examines issues and processes relevant to understanding tourism and sustainability in the formal educational sector including universities, vocational training and school settings. Part III explores learning and sustainable tourism in non-institutional settings including destination communities, coaching and mentoring and visitor learning. The final part provides a collection of cases to illustrate the use of different pedagogies and assessment approaches in education for sustainability in tourism. The book will be accompanied by instructor resources to assist educators teaching in the field.
