**Youth Employment Programmes in Africa** Ramos E. Mabugu, Lucas Ronconi, 2025-10-03 This book investigates youth employment programmes across nine African countries providing important insights into the world's youngest continent by population in which 60% of people are aged under 25. By 2050 the labour force in sub-Saharan Africa is expected to be almost double the size of the labour force in high income countries representing a massive shift in the world's working population and providing a significant challenge for job creation. In this book contributors bring together insights from more than 500 in depth interviews and 1 500 focus group participants to consider whether youth employment programmes are effectively reaching vulnerable groups. This book tackles the problem of political clientelism in the allocation of benefits and considers the level of coordination that is taking place across programmes and political institutions. Combining rich empirical findings with data about labour market outcomes and institutions this book will be an important read for researchers wishing to understand the political economy of youth employment policy in Africa. *Global Monitoring Report 2011*, 2011-01-01 Prepared jointly by The World Bank and the International Monetary Fund

*South Africa Pushed to the Limit* Hein Marais, 2013-07-04 Since 1994 the democratic government in South Africa has worked hard at improving the lives of the black majority, yet close to half the population lives in poverty, jobs are scarce and the country is more unequal than ever. For millions, the colour of people's skin still decides their destiny. In his wide-ranging incisive and provocative analysis, Hein Marais shows that although the legacies of apartheid and colonialism weigh heavy, many of the strategic choices made since the early 1990s have compounded those handicaps.

Marais explains why those choices were made where they went awry and why South Africa's vaunted formations of the left old and new have failed to prevent or alter them From the real reasons behind President Jacob Zuma's rise and the purging of his predecessor Thabo Mbeki to a devastating critique of the country's continuing AIDS crisis its economic path and its approach to the rights and entitlements of citizens South Africa Pushed to the Limit presents a riveting benchmark analysis of the incomplete journey beyond apartheid Finance Week ,2000-05 **Gender Equality, HIV and Education**
