The Leica M system has been with us since 1954. It rapidly became and has remained the favorite instrument of photographers especially photojournalists who like Henri Cartier Bresson seek to catch life in the act to record the decisive moment. In this *Leica M Compendium* Jonathan Eastland describes the whole Leica M system from his experience as a professional photographer. He explains how to use and enjoy and get the best out of the cameras and lenses regardless of age. The latest lenses can be used on the earliest cameras and vice versa and the Visoflex although no longer made is now much easier to use with the M6 and its TTL metering. Advice on planning and shooting a story with the Leica and extensive tables of technical data complete this ideal companion for the practical Leica M photographer as well as for the Leica collector and enthusiast.
