Ethical and Spiritual Dimensions of Social Progress Jacques Baudot, Gilbert T. Bergquist, 1998-12 Report of a seminar on Ethical notes on the spirit of humankind human dignity sectoral perspectives market universal value of love individualism in modern science human dignity as a central value elements for a new discourse Consumer Chronicles David H. Walker, 2011-03-31 At a time when the world is contemplating the depletion of non renewable natural resources the consumer society is increasingly being called into question This is nowhere more acutely evident than in France where since its beginnings in the nineteenth century the consumer revolution extending market forces into every area of social and private life has been perceived as a challenge to core elements in French culture such as traditional artisan crafts and small businesses serving local communities Cultural historians and sociologists have charted the increasing commercialisation of everyday life over the twentieth century but few have paid systematic attention to the crucial testimony provided by the authors of narrative fiction Consumer Chronicles rectifies this omission by means of close readings of a series of novels selected for their authentic portrayal of consumer behaviour and analysed in relation to their social cultural and historical contexts Walker's study offering an imaginative interdisciplinary panorama covering the impact of affluence on French shoppers shopkeepers and society provides telling new insights into the history and characteristics of the consumer mentality

Cinema is a dream Andrea Rabbito, 2017-05-30 T00:00:00+02:00 The emergence and spread of new images photography film television and audiovisual have brought about an important epistemological revolution that has encouraged contemporary man to have a new attitude of confidence not only towards the image but also to reality The modern knowledge that exploded man's certainties into hundreds of relative truths has been removed The perfect doubling of reality offered by the new media has quietly eliminated doubt about the faithful restitution of reality into images and consequently into the events of the outside world Opposing this credulity this mental breakdown as Joseph Conrad called it we will need to recover the principles and themes of modern thought that came into existence in the Seventeenth century This recovery will serve not only to oppose illusions and deceits but also to understand the nature of the new images better **Napoleon** James Thomas Herbert Baily, 1870 **L'autorité religieuse et ses limites en terres d'islam**, 2013-03-15 Reprénant nouveaux frais la question de l'autorité religieuse ce livre présente différents cas d'étude en Asie centrale travers l'Empire ottoman dans les Balkans et en Turquie Sont examinés les rapports complexes qu'entretiennent avec le pouvoir politique cheikhs soufis oulmas sheikh ul islâm hâgoums ou encore clergé latin l'époque pré-moderne Les XXe et XXIe siècles sont analysés du point de vue des transformations de l'autorité religieuse certes fragmentée mais vigoureuse en particulier chez les réformistes musulmans bosniaques et les Bektashis albanais galement parmi les Alvis d'Anatolie ou bien dans le soufisme finisien Istanbul Il apparaît que l'autorité religieuse dépasse le seul cadre des autorités traditionnelles et se heurte sans cesse des limites théologiques politiques sociales ou institutionnelles Ont contribué contributeurs include Elisabetta Borromeo Xavier Bougarel Rachida Chih

Ancient Egyptian Wisdom for the Internet Anna Mancini,2002 As cyberspace and real space function differently they cannot implicate the same legal values The most elementary wisdom invites us to forget our legal past so obviously ill adapted to the Internet so as to gain a better insight into the functioning of virtual space Attempts to regulate the Internet in the same way as the real world have inevitably failed and will continue to fail The only solution that can foster the expansion of the net and justify state intervention will come from a philosophy of law suited to virtuality Our philosophical legal traditions stemmed from agricultural and industrial roots and are therefore widely useless within the virtual context They cannot help us but the philosophy of ancient civilizations can At first sight it may seem paradoxical to look to ancient civilizations for counsels on legal regulation of the Internet But the virtual world is not a modern invention it has existed forever Ancient Egyptian Wisdom for the Internet demonstrates that the legal philosophy and knowledge of ancient civilizations are of great value in helping us deal with the Internet Through a challenging exploration of ancient legal knowledge this book offers new perspective on how to deal with and best profit from the Internet
