Letter Writing Manual:

Letter-writing Manuals and Instruction from Antiquity to the Present Carol Poster, Linda C. Mitchell, 2007 Once nearly as ubiquitous as dictionaries and cookbooks are today letter writing manuals and their predecessors served to instruct individuals not only on the art of letter composition but also in effect on personal conduct Poster and Mitchell contend that the study of letter writing theory which bridges rhetorical theory and grammatical studies represents an emerging discipline in need of definition In this volume they gather the contributions of eleven experts to sketch the contours of epistolary theory and collect the historic and bibliographic materials from Isocrates to email that form the basis for its study

How to Write Letters James Willis Westlake, 1880 [The Ladies Complete Letter-Writer \(1763\)](#) Alain Kerhervé, 2020-05-22 How did people learn to write letters in the eighteenth century Among other books letter writing manuals provided a possible solution Although more than 160 editions can be traced for the eighteenth century most manuals were largely intended for men As a consequence when *The Ladies Complete Letter Writer* was released in London in 1763 it was the first manual to be exclusively destined for women in eighteenth century Britain Even though it was published anonymously several elements tend to show that it must have been edited by Edward Kimber It was reprinted in Dublin in 1763 and in London in 1765 and largely circulated The reasons for its success may have come from its concern in epistolary rhetoric its original organisation or the entertainment provided by examples coming from different sources among which letters by Eliza Haywood Samuel Richardson Mary Collier or the Marquise de Lambert It also provided women with a variety of subjects which were supposed to be part of their sphere of interest and others which were not thus questioning a number of pre conceived ideas on women and their way of writing with or without propriety Unedited since 1765 the manual is now presented with introduction notes and two indices focusing on the issues of sources society and epistolary writing

How to Write Letters; a Manual of Correspondence James Willis Westlake, 1876 **William Gilpin and Letter Writing** Alain Kerhervé, 2014 William Gilpin and Letter Writing Vol 1 William Gilpin's Letter Writer Among the numerous letter writing manuals which were printed in eighteenth century Britain a few were authored by such famous novelists as Samuel Richardson or Daniel Defoe The present volume is a first time edition of an autograph manual devised by William Gilpin commonly known as one of the theoreticians of the picturesque which he intended either for individual use in the schools he was teaching or for publication The manual was exclusively devised for boys and men Although its primary purpose was to provide models of letters on various occasions at school in apprenticeship in debts in mourning its content is also partly fictional since several groups of letters provide short stories about the lives of young soldiers writing home reformed rakes making a fortune in India or fathers trying to correct their sons misdemeanours The whole tone is highly moral since the manual was also conceived as a work of edification As such it is an excellent counterpart to the correspondence which William Gilpin exchanged with his grandson William Writes to William The Correspondence of William Gilpin 1724 1804 and his Grandson William 1789 1811 Cambridge
