Julia Charlotte MAITLAND, 1847 **A Critical Dictionary of English Literature and British and American Authors, Living and Deceased, from the Earliest Accounts to the Latter Half of the Nineteenth Century** Samuel Austin Allibone, 1871

(M)Other Tongues Juliane Prade, 2020-05-15 M Other Tongues Literary Reflexions on a Difficult Distinction examines a key problem of literary criticism the differentiation between languages is at the same time necessary and impossible It is indispensable in order to read a text yet literary texts are precisely those that question this distinction articulating the link between languages and cultures as well as the inherent strangeness of even one's own mother tongue M Other Tongues explores texts from the 16th century to the 21st century focusing on different aspects of one main feature of literary texts formally as well as semantically they transcend the rules and conventions of the language they speak Crossing cultural borders is commonly discussed in historical social linguistic and psychoanalytical terms whether it be as post colonialism exilic or diasporic identities creoles or the displaced other within the own M Other Tongues argues that rather than being mere evidence in the theoretical analysis of cultural transitions literary texts are a unique medium to reflect such processes as they challenge and modify the notion of language itself The book discusses texts written mainly in English French and German but also in Spanish and the complex formerly known as Yugoslavian M Other Tongues shows that such distinctions between languages are precise since they can be exemplified with an indefinite number of words and rules and still remain uncertain because they cannot be abstracted from these examples What separates the mother tongue from other tongues is indeed precise uncertainty **History of Universities** Mordechai Feingold, 2014-10-09 Volume XXVII 2 of History of Universities contains the customary mix of learned articles and book reviews which makes this publication such an indispensable tool for the historian of higher education The volume is as always a lively combination of original research and invaluable reference material **A History of the People of the United States from the Revolution to the Civil War: 1790-1803** John Bach McMaster, 1915 Original Sanskrit Texts on the Origin and History of the People of India John Muir, Trübner & Co (Londres), 1874 **Educational Times**, 1893 *Homecoming Trails in Mexican American Cultural History* Roberto Cantú, 2021-04-16 This volume brings together a number of critical essays on three selected topics biography nationhood and globalism Written exclusively for this book by specialists from Mexico Germany and the United States the essays propose a reexamination of Mexican American cultural history from a twenty first century standpoint written in English and approached from different analytical models and critical methods but free of theoretical jargon The essays range from biographies and memoirs by leading Chicano historians and studies of globalism during the rule of Imperial Spain 1492 1898 to the modern rise and global influence of the United States particularly in Mexico Latin America and the Caribbean Also included are critical studies of novels by Chicano Latin American and Caribbean writers who narrate and represent the

dominant role played by the United States both within the nation itself and in the Caribbean thus illustrating the historical parallels and relations that bind Latinos and Americans of Mexican descent This book will be of importance to literary historians literary critics teachers students and readers interested in stimulating and unconventional studies of Mexican American cultural history from a global perspective **Saturday Review of Politics, Literature, Science and Art** ,1907
 Scientific American ,1895 **The Historians' History of the World: The British colonies, The United States (early colonial period)** Henry Smith Williams,1904 *Library of the World's Best Literature* Charles Dudley Warner,1898
