Life Orientation Trial Papers:

Capital Punishment C. Cliff, 2003 The issue of capital punishment is a continually debated issue because it calls into question the values and direction of society How is a civilisation supposed to handle lawbreakers Are some crimes so heinous and some people so dangerous that the death penalty is the only appropriate response The United States Constitution prohibits cruel and unusual punishment but opinions on whether that includes capital punishment are vehement on both sides Many states have some form of death penalty and public opinion seems to indicate support of it in principle However many firestorms have erupted recently over the application of the penalty including the topics of its use on minors and those with mental disabilities There are also questions raised about how much of a factor race plays in a capital sentence Internationally several countries have foresworn the death penalty with certain countries in Europe and the Americas refusing to extradite criminal suspects including suspected terrorists to the US if capital punishment is a possible sentence With such politically flammable and ethically challenging issues hanging over it capital punishment is a vitally important issue to understand To help facilitate that study this book assembles a carefully selected and substantial listing of literature focussing on the death penalty Anyone researching this area of criminal justice will find this book an important tool as it offers easy access to the most relevant works about capital punishment Following the bibliography further access is provided with author title and subject indexes *Implementing Pediatric Integrative Medicine in Practice* Hilary

McClafferty, 2020-01-24 This Special Issue provides an overview of pediatric integrative medicine an emerging field that blends conventional and evidence based complementary therapies with an emphasis on preventive health and wellbeing It is one of the first publications to capture the field's background as well as the implementation of pediatric integrative programs and therapies in both the United States and Europe Written by expert contributors in their specialties this work provides the reader a first hand look at the innovative programs serving children with a wide array of conditions in both academic and community based centers Covering topics including program development and start up pediatric pain headache obesity management stress clinical hypnosis creative arts therapies integrative nursing and provider self care the edition provides rich insight into the challenges and successes experienced by the authors and the creativity and passion driving the field with the goal of improving health care for children of all ages **Social Psychology And Health** Stroebe, Wolfgang, 2011-05-01
