Sustainable Goat Production in Adverse Environments: Volume I João Simões, Carlos Gutiérrez, 2018-01-11 This book explores the current trends and challenges of sustainable goat meat and milk production in different global contexts providing valuable insights into this industry in adverse environments like mountain semiarid and arid regions It also includes contributions from international experts discussing goat reproduction genetic diversity and improvement as well topics such as animal health welfare socioeconomic aspects and many other issues regarding the environmentally friendly and economically viable exploitation of goats This is a highly informative book providing scientific insight for readers with an interest in sustainable agriculture and socio economic aspects as well as goat breed conservation genetic diversity and veterinary care These subjects are complemented in a second volume providing a detailed description of more than 40 indigenous goat breeds and several ecotypes found in Asia Africa Europe and America *Achieving Nelson Mandela University?* Sibongile Muthwa, Denver A. Webb, 2024-08-20 South Africa s higher education sector is rooted in the country s divided past A significant State driven restructuring from around 1997 to 2005 resulted in what is largely the current configuration of public universities But just over two decades later for a variety of reasons the higher education sector in South Africa appears beset with numerous challenges Nelson Mandela University is one of the public universities that emerged from the restructuring process The university is in an ongoing state of evolution of becoming It developed out of the amalgamation of the University of Port Elizabeth Port Elizabeth Technikon and incorporation of the Port Elizabeth campus of Vista University as Nelson Mandela Metropolitan University in 2005 In 2017 it was renamed Nelson Mandela University after the world renowned statesman rather than the metropolitan area in which the university is primarily located The renaming was conceptualised as more than a marketing opportunity to rebrand the university but as an opportunity to reorientate the university to reposition Nelson Mandela University as an engaged and socially embedded university in the service of society striving to be the academic expression of the values and ethos of its iconic namesake Endeavouring to be something greater and different from the norm imbues its strategy public statements and practices The determination to achieve Mandela University serves or is intended to serve as both an organising principle and a lodestar A cross section of writers from different backgrounds situates Nelson Mandela University within the contemporary historical moment from which it emerged and examines its subsequent evolution While Nelson Mandela University has performed the usual work expected of any university it has also sought to turn the university outwards to achieve a higher purpose framing itself as a values based university on a journey to become something else In *Achieving Nelson Mandela University* the university attempts to give an account of itself The book is an intellectual and scholarly reflection on where the university has come from and where it is seeking to go *Combating School-Based Violence Using African Indigenous Knowledge Systems* Mfundo Mandla Masuku, Nomakhosi Nomathemba Sibisi, 2025-05-12 Using African epistemologies to understand contributing social and

cultural factors around African school violence this book investigates various kinds of school based violence suffered by learners and teachers in order to further research into the impact of educational interventions on crime prevention in African schools Investigating various kinds of school violence including gender based violence and gang violence the book uses African Indigenous Knowledge Systems and the philosophy of Ubuntu for example to tackle important concerns surrounding school violence social cohesion community engagement and role of education in fostering sustainable communities Chapters demonstrate a qualitative research approach that encompasses empirical and conceptual studies to provide an in depth exploration of violence in educational settings the book draws on human experiences and emotions as well as teachers learners communities and other relevant stakeholders perceptions of school violence This highly interdisciplinary volume will be of immense value to scholars researchers and postgraduate students in the fields of sociology of education philosophy of education and educational psychology Curriculum developers involved with module design may also find the volume of use

Ageing and Sexualities Rosie Harding, Elizabeth Peel, 2017-05-15 This book showcases developments in theory research and practice regarding sexuality and ageing considering the differences as well as similarities between and among ageing heterosexual and LGBT older people Identifying the questions central to future social scientific research on ageing and sexuality it focuses on the important emerging dimensions of sexuality and ageing embodiment the diversification of the ageing context and the intersections of care and sexuality With attention to the different forms of sexualities particularly at their intersection with gender this volume explores the importance of spatial and relational contexts whether individual residential or virtual with authors offering studies of online dating sexuality in the context of residential care and the relationship between sexuality legal frameworks and social policy Interdisciplinary in scope and offering the latest research from scholars in the UK Australasia and Africa Ageing and Sexualities constitutes an integrated approach to the conceptual and practical challenges of understanding the interplay of ageing and sexuality in contemporary society As such it will appeal to scholars from a variety of disciplinary backgrounds including sociology cultural studies socio legal studies social gerontology psychology medicine and health care

Operation Lock and the War on Rhino Poaching John Hanks, 2015-05-08 The aggressive poaching of rhinos needs to be countered with equal aggression So argued Prince Bernhard of the Netherlands the founder president of the World Wide Fund for Nature WWF at a 1987 meeting with John Hanks conservation expert and WWF's head in Africa The result was Operation Lock a secret initiative funded by Prince Bernhard and staffed by former SAS operatives Operation Lock set up headquarters in Johannesburg and extended its reach into neighbouring states Namibia Zambia Botswana Swaziland and Mozambique Its operatives planned to train game rangers to pose as rhino horn traders in order to entrap buyers and to expose the kingpins who were driving the trade It was a controversial approach all the more because it was working within apartheid South Africa in the late 1980s When the existence of the project was finally leaked WWF denied any involvement and John Hanks took the fall In *Operation Lock and the War on Rhino Poaching*

John Hanks finally tells the story of these explosive events from 25 years ago As a leading international authority on conservation he also deals with the scourge of rhino poaching up to the present and gives powerful and controversial criticism of some of the current policies to curb poaching Safari Nation Jacob S. T. Dlamini,2020-04-22 Safari Nation opens new lines of inquiry in the study of national parks in Africa and the rest of the world The Kruger National Park is South Africa s most iconic nature reserve renowned for its rich flora and fauna According to author Jacob Dlamini there is another side to the park a social history neglected by scholars and popular writers alike in which blacks meaning Africans Coloureds and Indians occupy center stage Safari Nation details the ways in which black people devoted energies to conservation and to the park over the course of the twentieth century engagement that transcends the stock black figure of the laborer and the poacher By exploring the complex and dynamic ways in which blacks of varying class racial religious and social backgrounds related to the Kruger National Park and with the help of previously unseen archival photographs Dlamini s narrative also sheds new light on how and why Africa s national parks often derided by scholars as colonial impositions survived the end of white rule on the continent Relying on oral histories photographs and archival research Safari Nation engages both with African historiography and with ongoing debates about the land question democracy and citizenship in South Africa **No Last Place to Rest** Dineo Skosana,2025-02-01 This book examines the impact of coal mining on the lives of former labour tenant and rural communities in post apartheid South Africa No Last Place to Rest Coal Mining and Dispossession in South Africa is an exploration of the ongoing struggles faced by families in the Mpumalanga and KwaZulu Natal provinces of South Africa whose lives have been upended by the relentless expansion of coal mining operations These regions burdened with the task of fulfilling the nation s energy needs and boosting the country s economy witness daily the harsh realities of dispossession that extend far beyond the mere loss of property Dineo Skosana presents a compelling argument that dispossession remains a present day reality and crisis contradicting the notion that it is merely a relic of the past in the post apartheid landscape It challenges the narrow perspective that equates land loss in material and economic terms only Skosana considers the impact of grave relocations a common occurrence in these mining dominated locales and the profound spiritual anguish and dehumanisation communities endure as their lands are excavated In African societies connections to the land extend beyond the material land has a sacred and ancestral value Grave relocations disrupt this connection families have with their ancestors In dispossessing not only the living but also the dead from their lands the author argues that the act wounds the collective soul of a people eroding their cultural heritage and collective identity and belonging This book offers a rich ethnographic account of the experiences struggles and resistance of the affected communities as well as a critical analysis of the legal and policy frameworks that enable their exploitation In relation to the land question in South Africa No Last Place to Rest presents deep insights for communities activists and government sectors acting in support of social justice and redress *The Zoological Record* ,2002 **Zoological Record** ,2002
