Let Them Eat Junk How Capitalism Creates Hunger And Obesity:

Let Them Eat Junk Robert Albritton, 2009-03-20 This book analyses the food industry from a Marxist perspective. Let Them Eat Junk argues that the capitalist system far from delivering on the promise of cheap nutritious food for all has created a world where 25% of the world population are over fed and 25% are hungry. This malnourishment of 50% of the world's population is explained systematically as a refreshing change from accounts that focus on cultural factors and individual greed. Robert Albritton details the economic relations and connections that have put us in a situation of simultaneous oversupply and undersupply of food. This explosive book provides yet more evidence that the human cost of capitalism is much bigger than those in power will admit.

The Ruling Ideas Amy E. Wendling, 2012-07-30 The concepts that organize our thinking wield by virtue of this fact a great deal of political power. This book looks at five concepts whose dominion has increased steadily during the bourgeois period of modernity: Labor, Time, Property, Value, and Crisis. These ruling ideas are central not only to many academic disciplines from philosophy and law to the political, social, and economic sciences but also to everyday life. These ruling ideas explain the cultural attitudes of boredom and multitasking, revealing the inescapable internalized consciousness of time that has become a mode of political domination. They also explain the terrifying environmental problem of privatized property in water and the terrifying humanitarian problem of privatized property in human bodies and body parts. Finally, they explain the affective dimensions of the housing crisis and especially why capitalism cultivates the desire to own a home that is beyond one's means.
