High,2022-12-01 Faculty in the science technology engineering and mathematics STEM disciplines face intensifying pressures in the 21st century including multiple roles as educator researcher and entrepreneur In addition to continuously increasing teaching and service expectations faculty are engaged in substantive research that requires securing external funding mentoring other faculty and graduate students and disseminating this work in a broad range of scholarly outlets Societal needs of their expertise include discovery innovation and workforce development It is critical to provide STEM faculty with the professional development to support their complex roles and to base this development on evidence derived from research This edited handbook provides STEM stakeholders with an opportunity to share studies and or experiences that explore STEM faculty development FD in higher education settings More specifically we include work that examines faculty development planning techniques models experiences and outcomes focused on supporting the teaching research service and leadership responsibilities of STEM faculty The Handbook is suited for researchers and practitioners in STEM STEM Education Mathematics Science Technology and Engineering disciplines It is also suited towards faculty developers higher education administrators funding agencies industry leaders and the STEM community at large This handbook is organized around three constructs INPUTS MECHANISMS and OUTPUTS The STEM faculty development inputs construct focuses on topics related to the characteristics of faculty members and institutions that serve as barriers or supports to the adoption and implementation of holistic STEM faculty development programs Questions addressed in the handbook around this topic include What barriers supports exist for STEM faculty How are these barriers supports being addressed through STEM FD

How do contexts e g economic political historical influence faculty administrative needs related to STEM FD How do demographics e g gender ethnicity age family background influence faculty administrative needs related to STEM FD The STEM faculty development mechanisms construct focuses on topics related to the actual implementation of STEM faculty development and we consider the potential models or structures of STEM faculty development that are currently in place or conceptualized in theory Questions addressed in the handbook around this topic include What are the processes for developing models of STEM FD What are effective models of STEM FD How is effectiveness determined What roles do stakeholders e g faculty administration consultants play within STEM FD mechanisms The STEM faculty development outputs construct focuses on how to best understand the influence of STEM faculty development on outcomes such as productivity teacher quality and identity in relation to faculty development Questions addressed in the handbook around this topic include How has STEM FD influenced higher education practices and settings What are appropriate output measures and how are they used in practice What collaborations emerge from STEM FD How does STEM FD affect other STEM stakeholders e g students administration business community The aim for this handbook was to examine the multifaceted demands of faculty roles and together with members of the STEM education community envision pathways through which universities and individuals may support STEM colleagues regardless of their experience or rank to enjoy long and satisfying careers Our hope is for these chapters to aid readers in deep reflection on challenges faculty face to contemplate adaptations of models presented and to draw inspiration for creating or engaging in new professional development programs Chapters across this handbook highlight a variety of institutional contexts from 2 year technical colleges to teaching focused institutions in addition to research centric settings Some chapters focus primarily on teaching and learning practices and offer models for improving STEM instruction Others focus on barriers that emerge for STEM faculty when trying to engage in development experiences There are chapters that examine tenure structures in relation to faculty development and how STEM FD efforts could support research endeavors Mentorship and leadership models are also addressed along with a focus on equity issues that permeate higher education and impact STEM FD It is our sincere hope that this Handbook sparks increased discourse and continued explorations related to STEM FD and in particular the intentional focus of faculty development initiatives to extend to the many facets of academic life

Immune mechanisms of protection against Mycobacterium tuberculosis Rhea Coler, Sarah Fortune, Willem Henry Boom, JoAnne L. Flynn, 2025-08-11 There were an estimated 1.6 million deaths due to tuberculosis (TB) in 2021 including 187,000 people with HIV and AIDS. *Mycobacterium tuberculosis* (M.tb), a NIAID Category C pathogen, the causative agent of TB, is the 13th leading cause of death globally and has again taken the lead as the number one killer due to a single infectious agent after being second to SARS-CoV-2 during the COVID-19 pandemic. In 2021, an estimated 10.6 million people fell ill with TB worldwide: 6 million men, 3.4 million women, and 1.2 million children. TB is present in all countries and age groups. The Immune Mechanisms of Protection Against

Mycobacterium tuberculosis Centers IMPAc TB program is an initiative established by NIAID in 2019 to elucidate the immune responses needed to protect against infection with M tb The program also aims to develop a better understanding of various pathogenesis aspects of TB infection such as latent infection and transition to active TB disease To accomplish these objectives multidisciplinary research teams at Harvard T H Chan School of Public Health Boston and Seattle Children s Research Institute were selected to conduct immunological analyses of tissue specific and systemic responses in small animals non human primates NHPs and humans to identify the key immune responses needed for protection against M tb identify immunologic targets that can be used to improve TB vaccine strategies determine the impact of human immunodeficiency virus HIV simian immunodeficiency virus SIV and nontuberculous mycobacteria NTM infections on relevant immune responses to M tb infection or TB vaccines and identify how bacterial immune evasion mechanisms subvert immune responses to M tb This Research Topic will provide Center Objectives and Goals as well as some data that have been generated since execution of the three IMPAc TB contracts In this Research Topic we discuss important questions including What are the mediators of the complex immune responses required to prevent M tb infection or active TB disease What are the common protective correlates of immunity against M tb in escalating preclinical animal models of TB How does NTM exposure affect the rational design and development of candidate vaccines that generate robust levels of durable protective immunity against TB What is the role of Systems Immunology in the context of investigating immune correlates of protection against M tb Why is it important to develop standardized reagents and standard operating procedures to profile immune responses in preclinical and human experimental medicine TB studies Are transcriptional signatures predictive What benefits are afforded by including the guinea pig model in the TB preclinical vaccine evaluation pipeline How to manage data across consortiums generating large datasets The Topic Editors RC SF WB JF declare that they are supported by the NIH on this IMPAc TB collaboration

Life Science Grade Paper For March 2014 Gauteng Introduction

In today's digital age, the availability of Life Science Grade Paper For March 2014 Gauteng books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of Life Science Grade Paper For March 2014 Gauteng books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of Life Science Grade Paper For March 2014 Gauteng books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing Life Science Grade Paper For March 2014 Gauteng versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, Life Science Grade Paper For March 2014 Gauteng books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing Life Science Grade Paper For March 2014 Gauteng books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for Life Science Grade Paper For March 2014 Gauteng books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It

also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, Life Science Grade Paper For March 2014 Gauteng books and manuals for download have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of Life Science Grade Paper For March 2014 Gauteng books and manuals for download and embark on your journey of knowledge?
