Science Instruction in the Middle and Secondary Schools Eugene L. Chiappetta,Thomas R. Koballa,2002 This
science methods textbook is designed to prepare middle and high school science teachers to help students become
scientifically and technologically literate by first helping them understand the elements of science reform and then
supporting their efforts Features new to the fifth edition include Open cases and vignettes that illustrate how science
teachers help students construct their own understanding Stop and Reflect exercises throughout each chapter to help
readers contextualize and reflect upon what was read Expanded coverage of teaching students with special needs and equity
in science teaching and learning Discussion of a variety of alternative and authentic assessment methods **How to Make
a Better School** Finlay McQuade,David W. Champagne,1995 School administrators teachers community leaders and parent
advisory groups looking for specific steps they can take to improve their schools will find concrete ideas and insightful
recommendations in this positive and practical book Anyone bewildered by the recent barrage of educational reports
standards guidelines and innovations will be pleased to find a coherent and comprehensive description of the well run school
From defining the school mission to evaluating the results of school improvement efforts the authors pinpoint key questions
to ask and outline procedures that will help school leaders devise their own solutions to the problems that affect their school
Readers will find a wealth of ideas in all aspects of school improvement evaluating and developing the curriculum enhancing
teaching and learning assessing student achievement hiring evaluating and supervising teachers developing the school
environment and providing the school leadership needed to support desired changes Every chapter includes specific
examples that demonstrate how real schools have chosen to address the issues and solve the problems discussed in the book
Throughout the authors emphasize the benefits of creating a coherent educational experience for students one in which
students consistently apply the information and skills they learn in one grade or subject to educational activities they
encounter in other grades and subjects Here are dozens of creative ideas any school can implement One example shows how
a school can deal thoroughly and effectively with a specific social problem that is affecting the school such as interpersonal
violence or an increase in eating disorders In other chapters the authors explain how extra curricular activities that are
popular with students and parents can be targeted to achieve important educational goals and how alternatives to traditional
courses and homework such as apprenticeships investigations independent projects and exhibitions can be used to enhance
learning and increase student motivation In the difficult area of assessment the authors suggest a variety of techniques

including questionnaires interviews observations recorded data portfolios projects lab experiments and quantitative investigations that can be used in addition to traditional pen and pencil tests to assess student achievement Michigan School Moderator ,1890 Scientific American ,1898 **Resources in Education** ,1996 **Scopes Worlds Famous** ,1971-05-21 *Scottish Education* T.
