Life Science Practical2 Mpumalanga 2015:

Psychology of Retention Melinde Coetzee, Ingrid L. Potgieter, Nadia Ferreira, 2018-08-30 This book offers a contemporary review of talent retention from the viewpoint of human resource management and industrial organisational psychology. With a practical and relevant perspective, it enriches critical knowledge and insight in the psychology of talent retention. It offers interpretation of difficult factors facing organisations such as the conceptualisation of talent, the forecasting of talent demand and supply, external and internal factors that influence talent attraction, development and retention, the alignment between talent management and business strategy. Also covered is the implementation of human resource practices and strategies in response to the needs of different organisational contexts and workforce characteristics. The chapter contributions will not only enrich knowledge and insight in the complex phenomenon of talent retention but also advance new original ways of thinking and researching this critically important area of inquiry. The book is intended for graduate students and researchers as an overview of the topic of talent retention; practitioners will also find it informative. **Blended learning environments**

to foster self-directed learning Christo van der Westhuizen, Mncedisi C. Maphalala, Roxanne Bailey, 2023-03-31 This book on blended learning environments to foster self-directed learning highlights the focus on research conducted in several teaching and learning contexts where blended learning had been implemented and focused on the fostering of self-directed learning. Several authors have contributed to the book, and each chapter provides a unique perspective on blended learning and self-directed learning research. From each chapter, it becomes evident that coherence on the topics mentioned is established. One of the main aspects drawn in this book and addressed by several authors in the book is the use of the Community of Inquiry (CoI) framework when implementing teaching and learning strategies in blended learning environments to foster self-directed learning. This notion of focusing on the CoI framework is particularly evident in both theoretical and empirical dissemination presented in this book. What makes this book unique is the fact that researchers and peers in varied fields would benefit from the findings presented by each chapter, albeit theoretical, methodological, or empirical in nature. This in turn provides opportunities for future research endeavours to further the narrative of how blended learning environments can be used to foster self-directed learning. *Conservation Biology in Sub-Saharan Africa* Richard Primack, Johnny W.

Wilson, 2019-09-10 *Conservation Biology in Sub-Saharan Africa* comprehensively explores the challenges and potential solutions to key conservation issues in Sub-Saharan Africa. Easy to read, this lucid and accessible textbook includes fifteen chapters that cover a full range of conservation topics, including threats to biodiversity, environmental laws, and protected areas management, as well as related topics such as sustainability, poverty, and human-wildlife conflict. This rich resource also includes a background discussion of what conservation biology is, a wide range of theoretical approaches to the subject, and concrete examples of conservation practice in specific African contexts. Strategies are outlined to protect biodiversity whilst promoting economic development in the region. Boxes covering specific themes, written by scientists who live and work

throughout the region are included in each chapter together with recommended readings and suggested discussion topics Each chapter also includes an extensive bibliography Conservation Biology in Sub Saharan Africa provides the most up to date study in the field It is an essential resource available on line without charge for undergraduate and graduate students as well as a handy guide for professionals working to stop the rapid loss of biodiversity in Sub Saharan Africa and elsewhere
