strong parallels with other new man visions in Europe and elsewhere In contrast to previous interpretations that focused largely on the apparent disconnect between utopian new man rhetoric and the harsh realities of everyday life in the Soviet Union this volume brings to light the surprising historical trajectories of new man visions their often obscure origins acclaimed and forgotten champions unexpected and complicated results and mutual interrelations In short the volume is a timely examination of a recurring theme in modern history when dramatic advancements in science and technology conjoin with anxieties about the future to fuel dreams of a new and improved mankind
