The Math Coach Field Guide Marilyn Burns, 2006 Math coaches and specialists assigned the task of improving mathematics instruction face an enormous and complex challenge. Most coaches take on the responsibility with a title and a charge but seldom with a road map. The Math Coach Field Guide: Charting Your Course provides just the kind of guidance needed to help coaches in this demanding and often undefined role as they strive to support teachers in their teaching of math. In this collection of 11 essays, veteran math coaches share their expertise, providing glimpses into the unique trials, false starts, and successes they have experienced on their position. *Math Teacher's Survival Guide: Practical Strategies, Management Techniques, and Reproducibles for New and Experienced Teachers, Grades 5-12* Judith A. Muschla, Gary R. Muschla, Erin Muschla, 2010-03-08 Classroom-tested strategies to help new and experienced math teachers thrive. Math teachers must not only instruct their students in basic mathematical skills and concepts; they must also prepare them for standardized tests, provide instruction in the use of technology, and teach problem-solving and critical thinking skills. At the same time, they must also manage their other responsibilities: taking attendance, planning, grading, record-keeping, disciplining, and communicating with parents and administrators. This book provides efficient and practical information on the management skills necessary to succeed in this most challenging profession. Offers realistic suggestions and strategies for planning and delivering effective math instruction. Helps math teachers achieve excellence and continue to be enthusiastic and successful in their teaching careers. Includes reproducible forms to help math teachers stay on top of everything they need to do.
