## ROOF PROFILES FOR MINECRAFT BUILDERS

These profiles can be used as is or can be extended/enlarged by continuing the roof pattern for each side. These profiles show the edge of the roof pattern. The middle areas don't need the extra underside blocks (see example). Some patterns are associated with different build styles. Clerestory, Saltbox and Butterfly can have a more modern look. Different block materials can greatly affect the overall feel of a building. Choose an appropriate block palette. Using a different material for the edges of the roof can help better define the roof and give it some contrast.
