Midlands State University Selected Applicants 2015:

Handbook of Research on Mobile Devices and Applications in Higher Education Settings Briz-Ponce, Laura, Juanes-Méndez, Juan Antonio, García-Peñalvo, Francisco José, 2016-07-13 Mobile phones have become an integral part of society as their convenience has helped democratize and revolutionize communication and the marketplace of ideas. Because of their ubiquity in higher education, undergraduate classrooms have begun to utilize smartphones and tablets as tools for learning. The *Handbook of Research on Mobile Devices and Applications in Higher Education Settings* explores and fosters new perspectives on the use of mobile applications in a classroom context. This timely publication will demonstrate the challenges that universities face when introducing new technologies to students and instructors as well as the rewards of doing so in a thoughtful manner. This book is meant to present the latest research and become a source of inspiration for educators, administrators, researchers, app developers, and students of education and technology. *Inclusion as Social Justice*, 2020-07-13 *Inclusion as Social Justice: Theory and Practice in African Higher Education* discusses the extent to which education enables equitable social access for diverse student populations in the context of historical sidelining of indigenous knowledge systems and epistemic injustice of colonial epistemologies in Africa. The goal is to theoretically unpack the social differentials and micro inequities that practically disempower diverse students in African higher education. To this end, the book features aspects of diversity such as gender, rurality, refugee status, and disability in general, with hearing and visual impairment as prime illustrations. It is argued that despite the ethically defensible and socially just policy and structural interventions for transforming higher education meant to redress the legacy of colonial injustices, urban universities present epistemological equity challenges for students from rural communities. Similarly, the opaque fate of students displaced from their home countries and currently studying in universities in host countries is analyzed. The book illustrates the access case for gender and disability in higher education using empirical studies and examples from Tanzania, Kenya, Ethiopia, Zimbabwe, and South Africa. Challenges facing students in higher education in these countries and the strategies the students devise to succeed in the institutions are analyzed. *Handbook of Research on Heritage Management and Preservation* Ngulube, Patrick, 2018-02-02 Archives, museums, and libraries are pivotal to the management and preservation of any society's heritage. Heritage assets should be systematically managed by putting in place proper policies, maintenance procedures, security, and risks measures, and retrieval and preservation plans. The *Handbook of Research on Heritage Management and Preservation* is a critical scholarly resource that examines different aspects of heritage management and preservation, ranging from theories that underline the field areas of convergence and divergence in the field, infrastructure, and the policy framework that governs the field, and the influence of the changing landscape on practice. Featuring coverage on a broad range of topics such as community involvement, records, legislation, and collection development, this book is geared towards academicians, researchers, and students seeking current research on heritage management and preservation. **The Palgrave Handbook**
