Pettiway,2023-12-14 Only when we transform our minds can we break the chains of our mental enslavement and find true liberation from our misperceptions about race crime and justice Social commentators and scholars have presented numerous theories on these topics But while all lament the horrors associated with discrimination and racism few so far have proposed a viable way to escape these sufferings By taking a critical look at the writings of novelists social commentators and scholars in the fields of sociology criminology criminal justice black studies philosophy and law Professor Leon E Pettiway presents a series of essays that provide a path that liberates us from these sufferings In doing so he provides a unique perspective that reframes the social realities of racial membership and institutional racism in the US and how they impact our perceptions of crime and justice Buddhism and race are essential elements of these discussions but Pettiway s commentary is also informed by an Afrocentric perspective In these ways Pettiway examines our thoughts concerning race the causes of crime and the administration of justice He uses these frameworks to demonstrate how our current modes of thinking reinforce and perpetuate white supremacy influence our scholarly endeavors and frame today s public policies and social agendas In Only for the Brave at Heart Essays Rethinking Race Crime and Justice readers will 1 learn new ways of thinking that can liberate our world from injustice 2 assess the ways we create the realities of race crime and justice 3 explore how love and compassion lead to meaningful actions that can reduce human suffering Pettiway has spent his career as an academic and Buddhist monk reflecting on and writing about the African American experience Only for the Brave at Heart attempts to create an intellectual movement that reimagines how we think about the perceived differences that fracture our society and disenfranchise so many In the end Only for the Brave at Heart is a critique and commentary on social justice This powerful collection of essays about discrimination and racism will prove to be one of the most important books about race in America today     *Ordaining Reality* Joseph E. Donlan,2008-02 Many people believe in the Power of Positive Thinking but until now no one has credibly explained how it works It has been this author s mission for 30 years to develop a plausible theory to support how mere thoughts can tangibly influence future events In this book the author presents a paradigm which shows how our right brain hemisphere can tap into a hidden domain which can influence the world around us To accomplish this he takes the reader through the subject of physics as it is known today and points out its recognized flaws and problems He then introduces and explains Eastern Philosophy and ties it into Western Physics In conjunction with this broadened view he explains how the human brain developed to comprehend both the Eastern and Western views of reality He then ties all of these notions into a new view of nature which supports the premise that the future can be created with thoughts In the final analysis he brings his readers through the necessary steps to put this knowledge to work to help them ordain their own reality     New Age ,2001     **Indian Books in Print** ,2003     **Subject Guide to Books in Print** ,1991     **American Book Publishing**
