## **Namibian Defense Force On 22 April 2014:**

Apartheid's Black Soldiers Lennart Bolliger, 2021-10-01 New oral histories from Black Namibian and Angolan troops who fought in apartheid South Africa's security forces reveal their involvement and its impact on their lives to be far more complicated than most historical scholarship has acknowledged. In anticolonial struggles across the African continent, tens of thousands of African soldiers served in the militaries of colonial and settler states. In southern Africa, they often made up the bulk of these militaries and in some contexts far outnumbered those who fought in the liberation movements' armed wings. Despite these soldiers' significant impact on the region's military and political history, this dimension of southern Africa's anticolonial struggles has been almost entirely ignored in previous scholarship. Black troops from Namibia and Angola spearheaded apartheid South Africa's military intervention in their countries' respective anticolonial war and postindependence civil war. Drawing from oral history interviews and archival sources, Lennart Bolliger challenges the common framing of these wars as struggles of national liberation fought by and for Africans against White colonial and settler state armies. Focusing on three case studies of predominantly Black units commanded by White officers, Bolliger investigates how and why these soldiers participated in South Africa's security forces and considers the legacies of that involvement. In tackling these questions, he rejects the common tendency to categorize the soldiers as collaborators and traitors and reveals the un-national facets of anticolonial struggles. Finally, the book's unique analysis of apartheid military culture shows how South Africa's military units were far from monolithic and instead developed distinctive institutional practices, mythologies, and concepts of militarized masculinity.

The Nature of Politics Annette A. LaRocco, 2024-04-16 This case study of Botswana focuses on the state-building qualities of biodiversity conservation in southern Africa. Drawing on extensive fieldwork, Annette A. LaRocco argues that discourses and practices related to biodiversity conservation are essential to state building in the postcolonial era. These discourses and practices invoke the ways the state exerts authority over people, places, and resources; enacts and remakes territorial control; crafts notions of ideal citizenship and identity; and structures economic relationships at the local, national, and global levels. The book's key innovation is its conceptualization of the conservation estate, a term most often used as an apolitical descriptor denoting land set aside for the purpose of conservation. LaRocco argues that this description is inadequate and proposes a novel and much-needed alternative definition that is tied to its political elements. The components of conservation control over land, policing of human behavior, and structuring of the authority that allows or disallows certain subjectivities render conservation a political phenomenon that can be analyzed separately from considerations of nature or wildlife. In doing so, it addresses a gap in the scholarship of rural African politics, which focuses overwhelmingly on productive agrarian dynamics and often fails to recognize that land nonuse can be as politically significant and wide-reaching as land use. Botswana is an ideal empirical case study upon which to base these theoretical claims. With 39 percent of its land set aside for conservation, Botswana is home to large populations of wildlife.

particularly charismatic megafauna such as the largest herd of elephants on the continent Utilizing more than two hundred interviews participant observation and document analysis this book examines a series of conservation policies and their reception by people living on the conservation estate These phenomena include securitized antipoaching enforcement a national hunting ban 2014 19 restrictions on using wildlife products forced evictions from conservation areas limitations on mobility and freedom of movement the political economy of Botswana's wildlife tourism industry and the conservation of globally important charismatic megafauna species Comrades Beyond the Cold War Tycho van der Hoog, 2025-02-06 North Korea was an important player in the decolonisation of Africa Freedom fighters across the continent received vital assistance from Pyongyang and almost all southern African independence leaders travelled to the North Korean capital at some point in search of support This alliance has continued into the twenty first century with African postcolonial governments throwing a lifeline to Pyongyang's increasingly isolated economy by hiring North Korean companies despite United Nations sanctions Tycho van der Hoog examines the relations between victorious southern African liberation movements and North Korea from the 1960s to the present He explains why African presidents sang and danced at parties in Pyongyang and why North Korean books were translated into Swahili and Afrikaans He reveals how African soldiers were trained in guerrilla warfare by North Korean instructors and how North Korean labourers construct monuments in Africa in the shape of AK 47s And he explores the question of how revolutionary regimes motivated by a need for survival work together to defy the global order Based on extensive research across four continents including recently disclosed African liberation archives and Korean diplomatic cables this innovative study is the first book on African North Korean relations *Politics and Pan-Africanism* Dawn Nagar, 2019-12-12 Offering an examination of the diplomatic and economic regional power structures in Africa and their relationships with each other Dawn Nagar discusses the potential and future of pan Africanism The three primary regional economic communities RECs that are recognised by the African Union as the key building blocks of a united Africa are examined these are the Common Market for Eastern and Southern Africa COMESA the East African Community EAC and the Southern African Development Community SADC These RECs include Africa's major economies Egypt South Africa and Kenya but are also home to Africa's most conflict prone and volatile states the Democratic Republic of the Congo DRC Burundi South Sudan Somalia and Lesotho Providing a detailed overview of the current relationship between these power blocs this book provides insight into the current state of diplomatic and economic relations within Africa and shows how far there is to go for a future of Pan Africanism In Different Times Ian van der Waag, Albert Grundlingh, 2019-11-15 This is the first attempt to bring together diverse scholars using different lenses to study South Africa's Border War As a book it is critical in approach provides deeper reflection and focuses specifically on the SADF experience of the war The result is a more complex picture of the war's dynamics and its legacies Although South Africa is a vastly different country today the study of the Border War opens a range of questions also relevant to contemporary deployments such as in Lesotho 1998 and

the Central African Republic 2013 It includes the debate on participation in foreign conflicts on the deployment design and preparation of appropriate modern armed forces and their use as foreign policy instruments in far off theatres on military planning and as the historical controversies regarding the battles at Cuito Cuanavale and Bangui illustrate on the interface between foreign campaigning and domestic politics Politics against Domination Ian Shapiro, 2016-04-04 Ian Shapiro makes a compelling case that the purpose of politics should be to combat domination and he shows what this means in practice at home and abroad This is a major work of applied political theory a profound challenge to utopian visions and a guide to fundamental problems of justice and distribution Political Handbook of the World 2016-2017 Tom Lansford, 2017-03-31 Published since 1928 the Political Handbook of the World provides timely thorough and accurate political information with more in depth coverage of current political controversies and political parties than any other reference guide The updated 2016 2017 Edition continues this legacy as the most authoritative source for finding complete facts and analysis on each country s governmental and political makeup Political science and international relations scholars have revised this edition and made understanding complex foreign affairs and political situations easy and accessible With more than 200 entries on countries and territories throughout the world housed in one place these volumes are renowned for their extensive coverage of all major and minor political parties and groups in each political system They also provide names of key ambassadors and international memberships of each country plus detailed profiles of more than 30 intergovernmental organizations and United Nations agencies This comprehensive update will include coverage of current events issues crises and controversies from the course of the last two years including The closely watched U S presidential election The effect of the Brexit referendum and installment of a new British prime minister The extensive investigation and subsequent impeachment of Brazil s president The far reaching impact of the Panama Papers scandal Changes in U S Cuba diplomatic relations and the reopening of their embassies The unconstitutional declaration of Gambia as an Islamic State Sentiments about the migrant and refugee crisis across Europe and the influence on policy Also the new For Further Reference feature included for every country entry directs readers to additional resources to continue their research *Political Handbook of the World 2015* Tom Lansford, 2015-03-24 The Political Handbook of the World provides timely thorough and accurate political information with more in depth coverage of current political controversies than any other reference guide The updated 2015 edition will continue to be the most authoritative source for finding complete facts and analysis on each country s governmental and political makeup Compiling in one place more than 200 entries on countries and territories throughout the world this volume is renowned for its extensive coverage of all major and minor political parties and groups in each political system It also provides names of key ambassadors and international memberships of each country plus detailed profiles of more than 30 intergovernmental organizations and UN agencies And this annual update includes coverage of current events issues crises and controversies from the course of this year *Southern African Liberation Struggles* A.
