*Meeting The Need Customer Service Training Manual* Troy Anders, 2023-10-10

ACG has incorporated the various customer service experiences from everyone ranging from the customer and the company representatives to the owners and policymakers to produce an approach from an unbiased position. By doing this we could discover and present solutions that will fix the problem at its core by starting at the top of the company and working down to the ground level of face-to-face customer service. This project requires us to work as a team. Our team comprises competent members from our Meeting the Need Customer Service Training class. As a team we divided the responsibilities and research equally among all members. We each focused on a particular section of the requirements and followed a project completion schedule. By so doing we could focus our individualized attention on every area and detail. Also we coordinated through email and telephone for all additional support and communication. By dividing responsibility, doing thorough research, collaborating on our ideas and attentively discussing all aspects of the issue we unified as a team to achieve dependable customers. This highly interactive training workshop provides a toolbox of skills for effectively and efficiently handling all types of customer interactions. Participants will learn customer service skills to help improve their performance and present a professional knowledgeable image that reflects well on your company. At the program's conclusion you should be able to:
