Keeping The Immigrant Bargain:

Keeping the Immigrant Bargain Vivian Louie, 2012-06-01 Most nineteenth and early twentieth century European immigrants arrived in the United States with barely more than the clothes on their backs. They performed menial jobs, spoke little English, and often faced a hostile reception. But two or more generations later, the overwhelming majority of their descendants had successfully integrated into American society. Today's immigrants face many of the same challenges, but some experts worry that their integration, especially among Latinos, will not be as successful as their European counterparts. *Keeping the Immigrant Bargain* examines the journey of Dominican and Colombian newcomers whose children have achieved academic success one generation after the arrival of their parents. Sociologist Vivian Louie provides a much needed comparison of how both parents and children understand the immigrant journey toward education, mobility, and assimilation. Based on Louie's own survey and interview study, *Keeping the Immigrant Bargain* examines the lives of thirty-seven foreign-born Dominican and Colombian parents and their seventy-six young adult offspring, the majority of whom were enrolled in or had graduated from college. The book shows how they are adapting to American schools, jobs, neighborhoods, and culture. Louie discovers that before coming to the United States, some of these parents had already achieved higher levels of education than the average foreign-born Dominican or Colombian, and after arrival, many owned their own homes. Significantly, most parents in each group expressed optimism about their potential to succeed in the United States while also expressing pessimism about whether they would ever be accepted as Americans. In contrast to the social exclusion experienced by their parents, most of the young adults had assimilated linguistically and believed themselves to be full participants in American society. *Keeping the Immigrant Bargain* shows that the offspring of these largely working-class immigrants had several factors in common that aided their mobility. Their parents were highly engaged in their lives and educational progress, although not always in ways expected by schools or their children, and the children possessed a strong degree of self-motivation. Equally important was the availability of key institutional networks of support, including teachers, peers, afterschool, and other enrichment programs, and informal mentors outside of the classroom. These institutional networks gave the children the guidance they needed to succeed in school, offering information the parents often did not know themselves. While not all immigrants achieve such rapid success, this engrossing study shows how powerful the combination of self-motivation, engaged families, and strong institutional support can be. *Keeping the Immigrant Bargain* makes the case that institutional relationships, such as teachers and principals who are trained to accommodate cultural difference, and community organizations that help parents and children learn how to navigate the system, can bear significantly on immigrant educational success. *Keeping the Immigrant Bargain* Vivian S. Louie, 2003 *Dreams Achieved and Denied* Robert Courtney Smith, 2024-08-01 U.S.-born Mexicans in New York City have achieved perhaps the biggest single generation jump in mobility in American immigration history. In 2020, 42 percent of second-generation U.S.

born Mexican men and 49 percent of U S born Mexican women in New York City had graduated from college versus a 13 14 percent second generation college graduation rate for most places for most studies done in recent decades How did U S born Mexicans in New York City achieve such remarkable mobility In *Dreams Achieved and Denied* sociologist Robert Courtney Smith examines the laws policies and individual and family practices that promoted and inhibited their social mobility For over twenty years Smith followed the lives and mobility of nearly one hundred children of Mexican immigrants in New York City Smith s longitudinal ethnographic data enabled him to intimately describe how specific mechanisms blocked or promoted mobility for years as his participants moved from adolescence through early adulthood and into established adulthood Smith documents how having or gaining legal status made certain New York City or New York State policies and practices more efficacious in supporting individual and family efforts and strategies for mobility Such immigrant inclusive and mobility promoting measures include enabling undocumented people to attend public colleges at in state tuition rates and later to get driver s licenses offering healthcare to all in New York City and the City s subway and school choice systems which enabled students to attend better schools or take opportunities outside their neighborhoods Smith finds that keeping the immigrant bargain whereby children of immigrants redeem their parents sacrifice by doing well in school helping their parents and siblings and becoming good people in their parents words helped them towards better adult outcomes and lives Having mentors picking academically stronger schools and friends and using second chance mechanisms also promoted more adult mobility However lacking legal status blocked mobility by preventing them from benefiting from these same mobility promoting city and state policies from mentors or from working hard and keeping the immigrant bargain *Dreams Achieved and Denied* deeply analyzes the historic upward mobility of U S born Mexicans in New York City It counters the dominant story research and public discourse tell about Mexican mobility in the U S and shows how thoughtful public policy can improve the lives of young immigrants and families

Life Undocumented Edeline M. Burciaga, 2025 *Life Undocumented* captures the compelling stories of Latinx undocumented young adults growing up and living in two distinct sociopolitical contexts California which provides legal pathways into higher education for undocumented youth and Georgia which does not It examines the intersection of federal state and local laws revealing the emotional and social mobility challenges faced by these individuals in navigating adulthood
