

Knowledge is power

6 pages | 1348 words

"A man without knowledge is like an idol" —Nidhi So knowledge is life and it gives power to human being which makes him different from the other living organism Knowledge according to Oxford dictionary is "Facts, information, and skills acquired through experience or education; the theoretical or practical understanding of a subject". "No thief, however skillful, can rob one of knowledge, and that is why knowledge is the best and safest treasure to acquire." L. Frank Baum. The Lost Princess of Oz, so the greatest treasure of life is knowledge. It is only by knowledge we can discern between right and wrong. If an animal kills a human being we say it's because it has no knowledge but if a human being kills a human being then he or she is punished as human being has the knowledge that he should not kill other human beings.

Indian Legend about the Importance of Knowledge

Abhimanyu was the son of Arjuna and Subhadra. Subhadra was the sister of Sri Krishna. He use to tell her of the war techniques once when Abhimanyu was still in the womb. He was telling her of how to break the challenges of chakra-vyuha but she dozed off. While Subhadra dozed off, Abhimanyu continued to carefully follow Sri Krishna's narrative of the Chakra-vyuha. But, after talking for some time and not receiving any response from Subhadra, Sri Krishna realised that she was savouring a sweet nap. Sri Krishna, who had at that time come up to the seventh step of the Chakra-vyuha, gave up his narration and returned with Subhadra to the palace. The unfortunate Abhimanyu could never obtain the technique of breaking all the circles in the chakra-vyuha, but whatever he had heard Sri Krishna say, he carefully preserved in his memory. He grew up to be a brave, handsome young man. Many years later, during the Mahabharata war at Kurukshetra, the Kauravas set up a Chakra-vyuha and challenged the Pandavas to come forward and break it. However, only Arjuna knew the technique of doing so but he was fighting elsewhere. At that stage, to save the honour of the Pandavas, Abhimanyu came forward and offered his services for the task of breaking the chakra-vyuha. Despite his incomplete knowledge of the technique he entered the grid and overcame one circle after another until he came to the seventh one, the breaking of which he had no knowledge. Brave and ambitious he was but in vain as he had no knowledge. By this we can come to the conclusion that knowledge is power and half knowledge can be dangerous. We have to be careful in this world when we live as we read about Abhimanyu there are many people with this half knowledge and it can be very dangerous that even it can put our life in risk Mahatma Gandhi says of "Seven Deadly Sins and one among that is Knowledge without character". Man has to spend his life to acquire knowledge but it should be to save the world and not to destroy it as for example nuclear energy is good for man use but if...

Knowledge & Power in the Global Economy David Gabbard, 2008 The second edition of Knowledge and Power in the Global Economy examines how neoliberal and neoconservative policies are working in tandem to privatize and commercialize public schools It looks at how these policies and the agendas behind them have impacted the internal dynamics of school management teaching and learning as well as how they have transformed the external dynamics of education from a public good or service offered to serve public interests to a private enterprise primarily serving private interests In addition to information critique and analysis multiple perspectives are provided that readers can draw upon to formulate an alternative vision of education as a crucial element of social change along democratic and egalitarian lines The first edition of this volume provided a critical encyclopedic approach to the rhetoric of educational reform as it developed from the 1980s through the 1990s critiquing its vocabulary elaborating the multiplicity of ways that the logic of neoliberalism and the emerging patterns of high stakes testing and accountability were impacting the curriculum and introducing ideas associated with alternative and liberatory educational projects Since its publication in 2000 policy developments such as the No Child Left Behind Act of 2001 in the U S and others in the U K and other parts of the world have nationalized and intensified these patterns deepening the logic and extent of neoliberalism s hold over educational reforms At the same time it is impossible to understand the current crises in education solely in terms of neoliberalism the impact of neoconservatism must also be considered Hence this second edition has a new subtitle The Effects of School Reform in a Neoliberal Neoconservative Age This edition is structured around five themes Political and Social Foundations Anti Educational Foundations The Set Up Anti Educational Foundations The Trap Classroom Consequences and Democracy s Path This volume will particularly interest scholars and professionals across the fields of educational foundations curriculum theory and educational policy and is well suited as a text for courses in these
