Mathematics 2 Kunihiro Kodaira, See the blurb for Japanese Grade 10 Canadian Books in Print. Author and Title Index ,1975 *Resources in Education* ,1998 Towards Gender Equity in Mathematics Education Gila Hanna,1996-02-29

The present volume consists of original scholarly articles that develop further issues pertaining to gender equity in mathematics education The premise that there is no physical or intellectual barrier to the participation of women in mathematics science and technology provides the starting point for analyses and discussion The authors explore the attitudinal and societal structural reasons for the gender imbalance in these fields and look at foci for change including curriculum and assessment practices classroom and school cultures and teacher education programs A major part of the book comprises a series of detailed descriptive studies of education systems across the world from the perspective of mathematics and gender equity issues **Twenty-Twenty Hindsight** Mosiuoa Sekese,2013-05-16 Twenty twenty hindsight means perfect understanding of events only after they have happened In his book Mosiuoa Sekese looks back on his life in the old and new South Africa and gives his own perceptive interpretation of the past events Sekese suffered discrimination and prejudice under the old apartheid government as well as the new democratic regime His story is highly personal but provides the reader with unique insights into the social and educational challenges that South Africa continues to grapple with I had a quick read and I find the content heartbreaking but fascinating Especially as a white South African you are drawing me into a world that I always knew existed but which few people have the guts and conviction to paint into words
