The Cambridge Primary Review Research Surveys Robin Alexander, Christine Doddington, John Gray, Linda Hargreaves, Ruth Kershner, 2012-08-06 The Cambridge Primary Review Research Surveys is the outcome of the Cambridge Primary Review England's biggest enquiry into primary education for over forty years. Fully independent of government, it was launched in 2006 to investigate the condition and future of primary education at a time of change and uncertainty and after two decades of almost uninterrupted reform. Ranging over ten broad themes and drawing on a vast array of evidence, the Review published thirty-one interim reports including twenty-eight surveys of published research provoking media headlines and public debate before presenting its final report and recommendations. This book brings together the twenty-eight research surveys specially commissioned from sixty-five leading academics in the areas under scrutiny and now revised and updated to create what is probably the most comprehensive overview and evaluation of research in primary education yet published. A particular feature is the prominence given to international and comparative perspectives. With an introduction from Robin Alexander, the Review's director, the book is divided into eight sections covering children's lives and voices, school, home and community, children's development, learning, diversity and needs, aims, values and contexts for primary education, the structure and content of primary education, outcomes, standards and assessment in primary education, teaching in primary schools, structures and processes, teaching in primary schools, training, development and workforce, reform, policy, frameworks, governance, funding, reform and quality assurance. The Cambridge Primary Review Research Surveys is an essential reference tool for professionals, researchers, students and policy makers working in the fields of early years, primary and secondary education.

Academic Framework for 21st-Century Schooling: Promoting Global Peace and

Harmony Mukhopadhyay, Marmar, Kundu, Arnab, 2023-10-16 In an era fraught with existential threats, Academic Framework for 21st Century Schooling: Promoting Global Peace and Harmony answers the urgent call for a new path forward. The UN Secretary General's recent address, echoing decades of warnings from UNESCO, has underscored the dire state of our world. Global warming, pollution, terrorism, unchecked population growth, discrimination, refugee migration, consumerism, and the ominous specter of weapons of mass destruction loom large in an age marked by nationalism and imperialism. The very fabric of human existence is unraveling, and even the UN's well-intentioned MDG and SDG initiatives are in jeopardy. This book, authored by esteemed scholars, proposes a transformation of global education as the antidote to this crisis. It champions the cultivation of a fresh generation with essential attributes like critical thinking, empathy, respect for diversity, and a profound sense of global responsibility. Schools are envisioned as the crucible for shaping these future citizens. At its core, this book offers a well-founded academic framework for global peace and harmony education, addressing the intricacies of 21st-century schooling, curriculum transformation, global best practices, and the vision of happy schooling. It is a clarion call to scholars and educators to lead the way toward a world where peace and harmony are not just ideals but the very foundation upon which

humanity thrives Our world and future generations depend on this transformative journey one we must embark upon without delay

The Sutherland Inquiry Stewart R. Sutherland, Great Britain. Department for Children, Schools and Families, 2008 The Sutherland Inquiry HCP 62 session 2008 09 ISBN 9780102958393 is an independent inquiry remitted by the Office of the Qualifications and Examinations Regulator Ofqual and the Secretary of State for Children Schools and Families into the delivery of the National Curriculum tests in 2008 In July 2008 1 2 million pupils heard that their National Curriculum test results would be delayed The test delivery service represented a failure in customer delivery service to the pupils schools and also the markers upon whom the National Curriculum testing regime relies The primary responsibility must therefore rest with the American organisation ETS Global BV ETS which won the public contract to deliver the tests and failed its customers This report examines how this organisation secured the contract what its plans were and why its systems and process as a whole were not properly tested The report will also describe how ETS's systems failed during the test delivery process There was also a failure on the part of the Government's Non Departmental Public Body the Qualifications and Curriculum Authority to deliver its remit The report also sets out the procurement process that QCA used to select its delivery supplier ETS and how it managed the contract The report sets out a number of recommendations on how test delivery can improve in future years and has set out a number of key priorities including that the delivery process of the National Curriculum tests should be modernised and improved in consultation with the marking community including piloting online marking that whatever process is used should be thoroughly piloted and project managed to ensure schools and pupils get their results on time that the customer service provided to markers must be vastly improved to ensure that they are properly supported and are able to access up to date information
