## **Maths Vocabulary Posters:**

**Mathematics Through Play in the Early Years** Kate Tucker, 2010-03-18 Teaching mathematics to young children in creative ways is made easy with this second edition of a wonderful book which offers the reader clear advice and lots of exciting ideas to use in any early years setting By showing how to introduce mathematical concepts through play based activities this book is in tune with current thinking about best practice in teaching and with the requirements of the Early Years Foundation Stage and current Primary National Strategy New material includes an additional chapter on creative recording a whole new chapter on ways to involve parents discussion of policy throughout the UK more on using ICT case studies covering the whole birth to eight age range Essential reading for any practitioner who wants to develop their mathematics teaching this book is equally important for all trainee teachers and early years students Kate Tucker is an early years teacher trainer and writer based in Exeter she has over 20 years of experience and has written widely on early years mathematics and Foundation Stage practice

**The Building Blocks of Early Maths** Elaine Bennett, Jenny Weidner, 2014-04-16 Young children need to develop and understand the core basic concepts in mathematics before they can move forward in their mathematical learning Without these solid foundations they are more likely to have gaps in their knowledge and require intervention in their primary years This new book provides guidance and resources to help you develop children s key skills and understanding in mathematics Written by experienced teachers the book outlines key mathematical concepts and provides a wide range of exciting mathematically rich activities that support the development of these concepts It exposes some of the common misconceptions and errors that practitioners may observe children showing in their settings and offers simple practical strategies to help move children forward in their thinking and understanding Covering all areas of mathematics learning counting and number calculation shape and space pattern measuring and handling data the book features practical ideas for supporting assessment observation mathematical vocabulary and building links with home activities that promote a child led approach linked to children s everyday lives and experiences guidance on how to extend and challenge children s learning through adult led quality teaching and effective practice a clear sense of progression based on children s understanding rather than age Written by experienced practitioners The Building Blocks of Early Maths will help you to ensure that the children in your care have the strong foundations they need to become confident successful mathematician in the future

**Strengths-Based Teaching and Learning in Mathematics** Beth McCord Kobett, Karen S. Karp, 2020-02-27 This book is a game changer Strengths Based Teaching and Learning in Mathematics 5 Teaching Turnarounds for Grades K 6 goes beyond simply providing information by sharing a pathway for changing practice Focusing on our students strengths should be routine and can be lost in the day to day teaching demands A teacher using these approaches can change the trajectory of students lives forever All teachers need this resource Connie S Schrock Emporia State University National Council of Supervisors of Mathematics President 2017 2019 NEW COVID RESOURCES

ADDED A Parent s Toolkit to Strengths Based Learning in Math is now available on the book s companion website to support families engaged in math learning at home This toolkit provides a variety of home based activities and games for families to engage in together Your game plan for unlocking mathematics by focusing on students strengths We often evaluate student thinking and their work from a deficit point of view particularly in mathematics where many teachers have been taught that their role is to diagnose and eradicate students misconceptions But what if instead of focusing on what students don t know or haven t mastered we identify their mathematical strengths and build next instructional steps on students points of power Beth McCord Kobett and Karen S Karp answer this question and others by highlighting five key teaching turnarounds for improving students mathematics learning identify teaching strengths discover and leverage students strengths design instruction from a strengths based perspective help students identify their points of power and promote strengths in the school community and at home Each chapter provides opportunities to stop and consider current practice reflect and transfer practice while also sharing Downloadable resources activities and tools Examples of student work within Grades K 6 Real teachers notes and reflections for discussion It s time to turn around our approach to mathematics instruction end deficit thinking and nurture each student s mathematical strengths by emphasizing what makes them each unique and powerful

Assessment for Dyslexia and Learning Differences Gavin Reid,Jennie Guise,2019-06-21 Filling a hole in the market for an informative and user friendly guide to the topic this is a go to guide for any parent or teacher Positive empowering and written to suit an international audience this guide is essential reading for education professionals and parents of children with dyslexia and other learning differences It includes practical strategies useful websites and resources as well as ways of recognising early on that your child or pupil has dyslexia The authors experienced dyslexia and learning differences consultants highlight the importance of effective and positive communication between home and school as well as with the child Assessment for Dyslexia and Learning Differences is the perfect pocket guide for busy professionals and parents who will be able to read it one sitting or alternatively dip in and out of it as they please Time to Shake Up the Primary Curriculum Sarah Wordlaw,2023-04-13 Developing children s voices raises awareness and empowerment particularly in marginalised communities It is important that children see themselves their heritage their cultures and their religions reflected and taught in schools not as a tokenistic celebration day or week but weaved throughout the curriculum Time to Shake Up the Primary Curriculum is a step by step guide on how to transform the curriculum content being taught in primary schools to better incorporate diversity into children s learning Headteacher Sarah Wordlaw equips teachers and school leaders with the appropriate subject knowledge to deliver a curriculum that is comprehensive inclusive and empowering whilst also providing an opportunity for current and aspiring school leaders to develop their leadership skills Covering history geography English maths science and the arts this book will aid teachers in becoming more inclusive and aware practitioners assist leaders in developing and implementing a whole school strategic approach to delivering an inclusive

curriculum where everyone feels seen drive OFSTED ranking to outstanding It enables and empowers teachers and school leaders to remap the National Curriculum to include diverse global topics to broaden children s understanding of their own community and wider society

**Literacy in the Secondary School** Maureen Lewis,David Wray,2014-02-25 First Published in 2000 Literacy is on the agenda in a big way in the United Kingdom The principal target of the National Literacy Strategy from 1997 till the middle of 1999 was the practice of teaching literacy in primary classrooms From 1999 however the target has broadened and now clearly encompasses secondary school teaching as well Very few secondary teachers even of English have received any substantial training in literacy work and if they are to respond in the best way possible to current initiatives they need help help of a very practical nature which enables them to introduce more effective attention to literacy into their subject teaching The aim of this book is to provide an account of the good practice encountered by the authors and offer some valuable practical support to secondary schools and teachers

*Enhancing Primary Mathematics Teaching* Frederick Ian Thompson,2003 The National Numeracy Strategy and the National Primary Strategy have had an enormous effect on the way in which mathematics is taught in primary schools This work provides an overview of the recommendations before embarking on a discussion of the issues involved

*Special Educational Needs in the Primary School* Jean Gross,1993

Math Makes Sense Rachel Griffiths,Margaret Clyne,1994

**Writing for Life** Primary English Teaching Association (Australia),1988 In recent years thee has been renewed interest in writing in the primary schools and the process approach has made a big impact on children and their teachers Yet are we making the most of this approach Is there not a risk that process writing will just be indentified with story writing and forfeit its potential for writing in all areas of the curriculum Are our children learning to use the different kinds of writing that they will need in the course of their education and their lives The contributors to this book who include several practising teachers argue that children should be taught how to write in the various genres or kinds of writing that are needed Drawing on their own experiences they show how teachers can develop their teaching of writing to realise the full potential of the process approach and at the same time maintain its vitality

*British Education Index* ,1988

**El-Hi Textbooks & Serials in Print, 2005** ,2005

Literacy and the Competencies Suzanne Mellor,1996

Bilingual Education in China Anwei Feng,2007 This volume brings a mixed group of researchers together to discuss issues in bilingual or trilingual education for the majority and minority nationality groups in China and to explore the relationship between the two

*El-Hi Textbooks and Serials in Print* ,2003

Alt.culture Steven Daly,Nathaniel Wice,1995 Global Strategic Management is written by award winning lecturers in strategy involved with the Community of European Business Schools and International Business CEMS who have a wealth of experience teaching strategy to future business leaders For those teaching courses in strategy to those going on to work in organisations working in a global environment this text will meet a number of key teaching and learning needs

Current Index to Journals in Education ,1981

*Australian Language Matters* ,2000

*Seven Seasons in Aurukun* Paula Shaw,2009 A well

crafted memoir of a young woman who spends two years teaching at the school at Aurukun in Cape York paints a colourful picture of life in a remote Aboriginal community in the sweltering tropics *El-Hi Textbooks & Serials in Print, 2003* ,2003
