Wolferman, 2020-01-28 When Kansas City's Nelson Atkins Museum of Art opened to the public in 1933 it was viewed as a miracle an oasis of culture in a Midwestern town whose image was still largely one of cowboys and steaks In an engaging style Kristie Wolferman tells the history of the Nelson Atkins from its founding to the present day a fascinating combination of people events and circumstances that culminated in an art museum that now holds its own among the finest in the world Wolferman begins by relaying how the trustees of the estates of the reclusive widow Mary Atkins and the family of Kansas City Star newspaper editor William Rockhill Nelson joined forces to establish a museum from scratch then goes on to consider all of the highly talented people who directed and staffed the Nelson Atkins along the way their efforts resulting in many bold innovations among them new collections grounds and educational programs and offerings With 100 color and black and white photographs this book will be treasured by all who love and admire this remarkable institution one that attracts half a million visitors from across the city state nation and world each year This is a co publication of the University of Missouri Press and the Nelson Atkins Museum of Art      **The Governance Gap** Penelope Simons, Audrey Macklin, 2014-07-11 This book explores the persistence of the governance gap with respect to the human rights impacting conduct of transnational extractive corporations operating in zones of weak governance The authors launch their account with a fascinating case study of Talisman Energy's experience in Sudan informed by their own experience as members of the 1999 Canadian Assessment Mission to Sudan Harker Mission Drawing on new governance reflexive law and responsive law theories the authors assess legal and other non binding governance mechanisms that have emerged since that time including the UN Guiding Principles on Business and Human Rights They conclude that such mechanisms are incapable of systematically preventing human rights violating behaviour by transnational corporations or of assuring accountability of these actors or recompense for victims of such violations The authors contend that home state regulation while not a silver

bullet has a crucial role to play in regulating such conduct They pick up where UN Special Representative John Ruggie s Guiding Principles on Business and Human Rights left off and propose an innovative robust and adaptable template for strengthening the regulatory framework of home states Their model draws insights from the theoretical literature leverages existing public private transnational national soft and hard regulatory tools and harnesses the specific strengths of state based governance This book will be of interest to academics policy makers students civil society and business leaders

**Pistols in St Paul's** Fiona Smyth, 2024-09-24 A ground breaking account of the scientists and architects who pioneered acoustics in twentieth century Britain On a winter s night in 1951 shortly after Evensong the interior of St Paul s Cathedral echoed with gunfire This was no act of violence but a scientific demonstration of new techniques in acoustic measurement It aimed to address a surprising question could a building be a musical instrument Pistols in St Paul s tells the fascinating story of the scientists architects and musicians who set out to answer this question Beginning at the turn of the century their innovative experiments which took place at sites ranging from Herbert Baker s Assembly Chamber in Delhi to Abbey Road Studios and a disused munitions factory near Perivale would come to define the field of architectural acoustics They culminated in 1951 with the opening of the Royal Festival Hall the first building to be designed for musical tone Deeply researched and richly illustrated Pistols in St Paul s brings to light a scientific quest spanning half a century one that demonstrates the power of international cooperation in the darkest of times *HC 728-II - Project Verde: Volume II* Great Britain. Parliament. House of Commons. Treasury Committee, 2014 One of the most significant consequences of Co op Bank s near collapse from a public policy perspective was the collapse of Lloyds Banking Group s planned divestment under Project Verde Co op Bank s withdrawal forced Lloyds to resort to its fallback option of an Initial Public Offering The result is a new bank TSB which not having an existing banking presence of its own consists solely of the business divested by Lloyds Accordingly it has a personal current account market share not of 7 per cent but of 4.2 per cent There is a risk that a bank of this size might struggle to grow significantly and to act as a true challenger in the market Had Co op Bank s resulting capital shortfall been uncovered earlier it is likely that the bank would not have progressed so far with Verde As it was the rapid and late emergence of the capital problem led to Co op s withdrawal from the Verde process at a relatively late stage The Committee recommends that the FRC investigation and the independent inquiry into the events at Co op Bank consider the role of KPMG and the FSA in relation to the late emergence of loan impairment and IT losses On the basis of these findings the independent inquiry into the events at Co op Bank should also form a view on whether Co op s Verde bid could or should have been halted sooner While it may not have been fully transparent from the start that Co op Bank s bid was doomed to failure it was beset by problems from an early stage But it was not these problems that killed the deal it was the capital shortfall that emerged only late in the day It is important from every angle to determine why the capital shortfall was not uncovered earlier *The City Record* New York (N.Y.), 1898 **Bulletin** New York (N.Y.).
