Index to Handicraft Books, 1974-1984 Carnegie Library of Pittsburgh. Science and Technology Department, 1986 Handicrafts and do-it-yourself projects have always been a library's most popular and heavily requested subject. And for more than a decade, a definitive index to handicraft books has not been published. To fill this gap, the Science and Technology Department at Carnegie Library of Pittsburgh has compiled the *Index to Handicraft Books*, listing more than 900 books and over 12,400 subject entries covering books published from 1974 to 1984. The *Index to Handicraft Books* is an essential reference tool for librarians who want to help someone find instructions for a varied range of do-it-yourself projects, providing quick access to craft projects in books more recent than previous handicraft index books have listed. Each entry in the index consists of a subject heading, the name of the project as listed in the book, the author, and title of the book, and the page numbers on which the project can be found. The author and title correspond to those in the List of Works Cited section, which gives full bibliographic information in order to help librarians find the book on their shelves or obtain the book through inter-library loan. Because this index developed from a card file index of craft books acquired by Carnegie Library since 1974, the list concentrates mainly on medium-priced books that most libraries buy.

Catalog Sources for Creative People Margaret Ann Boyd, 1981 **World Clothing and Fashion** Mary Ellen Snodgrass, 2015-03-17 Taking a global, multicultural, social, and economic perspective, this work explores the diverse and colourful history of human attire. From prehistoric times to the age of globalization, articles cover the evolution of clothing, utility, style, production, and commerce, including accessories, shoes, hats, gloves, handbags, and jewellery for men, women, and children. Dress for different climates, occupations, recreational activities, religious observances, rites of passages, and other human needs and purposes, from hunting and warfare to sports and space exploration, are examined in depth and detail. Fashion and design trends in diverse historical periods, regions, and countries, and social and ethnic groups, constitute a major area of coverage, as does the evolution of materials from animal fur to textiles to synthetic fabrics and production methods from sewing and weaving to industrial manufacturing and computer-aided design. Dress as a reflection of social status, intellectual and artistic trends, economic conditions, cultural exchange, and modern media marketing are recurring themes.
