Although no one disputes that employment relations worldwide have been greatly affected by globalisation no clear consensus has emerged on the nature and significance of this impact The seven contributions to this symposium pursue a comparative approach suggesting that direct analysis of employment relations in distinct industries in two comparably sized economies since the advent of globalisation leads to a more precise understanding of the interaction of globalisation and employment relations and sets a pattern for other studies to follow The economies studied in the symposium are Australia and Korea and the industries are automobile and auto parts manufacturing and retail banking In both countries labour unions play a key role in the way in which employers and governments react to political and economic pressures Among the particular topics discussed by the contributors are the following effects of the 1997 financial crisis in Korea the extent to which the automobile industry in one country Korea depends on parts and raw material from another country Australia cross border cooperation between unions the growing trend toward enterprise bargaining conciliation and arbitration of industrial disputes and the role of government sponsored industrial relations commissions The contributing authors are all industrial relations authorities in Australia or Korea The in depth analysis they offer in these very specific areas will be of value to labour lawyers and industrial relations scholars everywhere for the light it sheds on this crucial aspect of contemporary social and economic development *Lemon-Aid New Cars and Trucks 2012* Phil Edmonston, 2011-12-03 Lemon Aid guides steer the confused and anxious buyer through the economic meltdown unlike any other car and truck books on the market Phil Edmonston Canada's automotive Dr Phil pulls no punches He says there's never been a better time to buy a new car or truck thanks to a stronger Canadian dollar and an auto industry offering reduced prices more cash rebates low financing rates bargain leases and free auto maintenance programs In this all new guide he says Audis are beautiful to behold but hell to own biodegradable transmissions rodent snack wiring and mind boggling depreciation Many 2011 12 automobiles have chin to chest head restraints blinding dash reflections and dash gauges that can't be seen in sunlight not to mention painful wind tunnel roar if the rear windows are opened while underway Ethanol and hybrid fuel saving claims have more in common with Harry Potter than the Society of Automotive Engineers GM's 2012 Volt electric car is a mixture of hype and hypocrisy from the car company that killed its own electric car more than a decade ago You can save 2 000 by cutting freight fees and administrative charges Diesel annual urea fill up scams can cost you 300 including an 80 handling charge for 25 worth of urea Lemon Aid's 2011 12 Endangered Species List the Chinese Volvo the Indian Jaguar and Land Rover the Mercedes Benz Smart Car Mitsubishi and Suzuki *The Complete Car Cost Guide, 2002* IntelliChoice, Inc, 2002 **Kiplinger's Personal Finance**, 2004-05 The most trustworthy source of information available today on savings and investments taxes money
