shaping the city During these formative decades Oda argues San Francisco's relations with and ideas about Japan were being forged within the intimate local sites of civic and community life This shift took many forms including changes in city leadership new municipal institutions and especially transformations in the built environment Newly friendly relations between Japan and the United States also meant that Japanese Americans found fresh if highly constrained job and community prospects just as the city's African Americans struggled against rising barriers San Francisco's story is an inherently local one but it also a broader story of a city collectively if not cooperatively reimagining its place in a global economy
